supplying the professionals

PRODUCT CATALOGUE 2015/2016

WELCOME TO PODIACARE HEALTHCARE

Podiacare Healthcare was created some years ago at the request of practitioners and has brought low prices and good quality to the profession, including some of the finest ranges of foot creams and treatments in Europe.

This catalogue replaces and supersedes all previous catalogues.

Prices are applicable from 1st January 2015 and exclude VAT.

We have included all the traditional products and preparations, which you regularly use, as well as some new items. If there are any additional items you would like us to carry, then please do let us know. Please send any feedback to info@podiacare.co.uk.

HOW TO ORDER

To supply your order we need the following:

- **Your Unique Account Number** (*For non-members a Unique Number will be issued on your Invoice for future use*).
- **Your Name**
- **Your Invoice Address and your Delivery Address** (*only if different from the Invoice address*). Please note that goods will not be left unsigned for unless prior instructions are given to Podiacare Healthcare to leave in a secure location at time of placing the order. The courier company will only accept alternate delivery instructions from their customer, Podiacare Healthcare, not a third party.
- **Your Cheque or your full Credit/Debit Card details**, (*We respectfully ask that you double check that you have completed your cheque or credit card details correctly and in full before submitting your order*). Please include the 3 digit security code on the reverse of your card (these can be found on the signature strip and are the last 3 digits of the printed number).
- The Product **CODE**, a short **DESCRIPTION** and the **QUANTITY** of the Product you wish to order.

Failure to supply any of the above will result in a delay in processing your order.

Please note: The medicaments with a PH Code, must not be sold to patients. They are solely for use by qualified practitioners.

Stock Availability:

NS denotes a non-stock item. Please allow up to 21 days for delivery.

METHODS OF ORDERING:

By web: www.podiacare.co.uk

By fax: **01628 674 483**

By answerphone: **01628 637 625**
24 hour answer phone cleared
@ 8am daily Mon. to Fri.

By telephone: **01628 632 449**
URGENT 24 HOUR COURIER DELIVERY
Orders must be placed by noon.
A carriage charge of £9.00 applies.

BMA Concise Guide to Medicines & Drugs 3e

B1602 - £9.99

480
pages

BEST
SELLER

Jargon-free and easy-to-follow, get all the vital information you need on 2,500 of today's prescription and over-the-counter drugs fast. Find advice on understanding and using medicines and learn how they work, what they treat, their risks, benefits, side effects, and how to use them safely and effectively. Essential guidance for anyone taking medication, or wanting to know more about the major drugs used in common medical practice.

Clinical Biomechanics of the Lower Extremities

B1630 - £71.99 Valmassy

528
pages

Clinical Biomechanics of the Lower Extremities is a comprehensive text addressing the principles of anatomic and biomechanical development and the clinical application of these principles to disease/disorder management. The emphasis of the book is on practical information applicable to the daily practice of lower extremity care. Topics covered include: the physical examination and the assessment of disorders having a biomechanical basis, casting techniques, prescription writing, orthotic trouble-shooting, splinting and shoe prescription for athletic activity.

Clinical Gait Analysis - Theory and Practice

B1809 - £47.99 Kirtley

328
pages

Clinical Gait Analysis provides a detailed clinical introduction to the application of biomechanics to the understanding and treatment of walking disorders. Practical issues in the performance of a three-dimensional clinical gait analysis are covered, together with several clinical cases illustrating the interpretation of findings. These cases also demonstrate the use of a variety of treatment methodologies, including physical therapy, walking aids, prosthetics and orthotics. *Clinical Gait Analysis* explains in an accessible way the whole process of recording and appropriately interpreting the findings of 3D gait analysis. A valuable teaching aid, the book will also function as a handbook of good practice for the many professionals involved in this increasingly popular field.

Clinical Medicine 8e

B1573 - £49.99 Kumar & Clark

992
pages

Kumar and Clark's *Clinical Medicine* is known, respected and admired by medical students, doctors and health professionals throughout the world. It provides in one volume a comprehensive and authoritative source of information on the management and treatment of medical problems. Clarity of writing, a hallmark of Kumar and Clark, has been combined with a colourful and attractive presentation and a companion website to produce a complete resource of medical information.

Clinical Skills in Treating the Foot

B1620 - £49.99 Turner & Merriman

496
pages

A textbook for students and others that looks at the treatment options for foot problems, how the appropriate selections should be made and how they should be incorporated into the management of the affected patient. The text is in 3 main sections: the essential principles of managing foot disorders; methods for managing foot conditions; and the management of specific client groups. Logical and clear text structure makes it easy to use for both clinical reference and student revision.

Color Atlas of Foot and Ankle Anatomy 4e

B1500 - £45.99 McMinn

160
pages

Phenomenal images of dissections, osteology, and radiographic and surface anatomy provide you with a perfect grasp of lower limb structures. You'll have an unmatched view of muscles, nerves, skeletal structures, blood supply, and more, plus new, expanded coverage of regional anesthesia injection sites and lymphatic drainage. Unlike the images found in most other references, all of these illustrations are shown at life size to ensure optimal visual comprehension.

Davidson's Principles and Practice of Medicine, 21st Edition

B1562 - £59.99 Colledge & Walker & Ralston

1376
pages

2011 BMA Book Awards - Highly Commended in Medicine *

More than two million medical students, doctors and other health professionals from around the globe have owned a copy of Davidson's Principles and Practice of Medicine. Today's readers rely on Davidson's to provide up-to-date detail of contemporary medical practice, presented in a style that is concise, beautifully illustrated and easy to read. Davidson's not only provides all of the factual knowledge required to practice medicine, but also explains it in the context of underlying principles, basic science and research evidence, and shows the reader how to apply their knowledge to manage patients who present with problems rather than specific diseases.

Dermatology at a Glance

B2318 - £25.99 Chowdhury, Katugampola, Finlay

112
pages

BEST
SELLER

Following the familiar and easy-to-use at a Glance format, this brand new title provides a highly illustrated and accessible introduction to the structure and function of skin. It is the ideal guide for any medical student required to interview and examine patients, identify skin diseases, and develop a differential diagnosis and a treatment plan. Each chapter covers the epidemiology and pathogenesis of the disease, as well as presentations likely to be encountered in both clinical practice and exams.

Dermatology at a Glance:

- Is comprehensively illustrated throughout with over 300 high quality colour slides and photographs.
- Covers the key aspects of the British Association of Dermatologists core curriculum.
- Includes 'Key points' and 'Warnings'.
- Features a self-assessment 'picture quiz' to help test learning and recognition, in preparation for dermatology tests.
- Includes a companion website at www.ataglanceseries.com/dermatology featuring self-assessment case studies, key point revision documents, and an image bank from the book.

The descriptive diagrams and photographs, coupled with clear explanations, will help all medical students and health professionals get to grips with the identification and treatment of all of the most common skin diseases.

Foot and Ankle Injection Techniques, A Practical Guide, 1st Edition

B2312 - £43.99 Metcalfe & Reilly

208
pages

Foot and Ankle Injection Therapies provides the student and practising podiatrist with all they need to understand when, how and what to inject. To support the clinician and student, the text covers:

- Changes in legislation.
- The full range of injectable drugs available to the practitioner.
- Essential information on nerve physiology, drug action, equipment, patient selection, injection techniques and many other topics.
- A Step-by-step guide to injection techniques.
- Useful background information in introductory chapters.
- DVD with video clips to supplement the text.

Foot and Ankle Injection Therapies is designed with a lie-flat binding for ease of reference in the clinic. It contains many photographs and clear colour line illustrations of the techniques and underlying anatomy. Introductory chapters give useful background information, and the accompanying CD contains video clips to supplement the text. Edited by two highly respected podiatric surgeons and with contributions from other experts, Foot and Ankle Injection Therapies is a book no student or practitioner will want to be without.

Handbook of Diabetes 4e

B2261 - £59.50 Bilous & Donnelly

248
pages

Over three editions, the *Handbook of Diabetes* has built a reputation as an essential practical manual on the assessment and management of patients with diabetes. Previously written by Gareth Williams and John Pickup, the book has been completely revised by Rudy Bilous and Richard Donnelly to reflect recent changes in diabetes treatment and care. It contains information on the new IFCC units for measuring blood glucose and the latest drugs being used to combat diabetes, as well as alternative methods of insulin delivery.

The book has been fully updated and redesigned to make it even more user-friendly and contains case histories, practice points and landmark clinical trials, highlighted in colour in each chapter where appropriate. It also features an entirely new set of clinical photographs with an added bonus of all 250 images from the book available to view on the companion CD. The *Handbook of Diabetes* is the ideal practical handbook for all health professionals with an interest in diabetes care.

Introduction to Podopediatrics 2e

B1590 - £48.99 Thomson

408
pages

A concise but comprehensive introduction to the effective care of foot problems in children. Including coverage of the general specialist and medical conditions which may influence the course of the podiatric treatment. Written by a multidisciplinary international team of contributors under the editorship of a UK practitioner and an American educator and practitioner - both podiatrists.

Macleod's Clinical Examination 13e

B2222 - £59.99 Douglas, Nicol & Robertson

472
pages

This classic textbook sets out clearly and concisely how to evaluate symptoms and elicit relevant physical signs. It describes the practical skills which every clinician must acquire and develop in order to evolve diagnostic procedures and management strategies and plans. 'Highly Commended' in the 2006 and 2010 BMA Medical Book Competitions, this Thirteenth Edition contains over 500 clinical photographs and diagrams to illustrate the text, with new topics added to make the book even more comprehensive.

This Thirteenth Edition has four sections:

- History taking and general examination.
- System examination covering symptoms and signs.
- Examination in special situations including babies & children and the critically ill.
- Assessing clinical examination technique.

Included on the Student Consult site are the specially-recorded videos demonstrating many of the clinical examination routines described in the main text.

Managing the Diabetic Foot 3e

B2262 - £39.99 Edmonds & Foster

240
pages

The 3rd edition of *Managing the Diabetic Foot* once again provides a practical, handy and accessible pocket guide to the clinical management of patients with severe feet problems associated with diabetes, such as ulcers, infections and necrosis. By focusing on the need for a speedy response to the clinical signs, it will enable doctors make rapid, effective management decisions in order to help prevent deterioration and avoid the need for eventual foot amputation.

Each chapter focuses specifically on the different stages of foot disease and the clinical management required at that particular stage, ie, the normal foot; high-risk foot, ulcerated foot, infected foot, necrotic foot and unsalvageable foot.

Full colour throughout, it will feature over 150 clinical photos, numerous hints and tips to aid rapid-reference, as well as the latest national and international guidelines on diabetic foot management.

Managing the Diabetic Foot 3E, is the ideal go-to clinical tool for all diabetes professionals, specialist diabetes nurses and podiatrists managing patients with diabetic foot problems.

Medical Pharmacology and Therapeutics

B2314 - £48.99 Waller, Renwick & Hillier

744
pages

This book covers all the pharmacology you need, from basic science pharmacology and pathophysiology, through to clinical pharmacology to therapeutics, in line with the integrated approach of new medical curricula. The first section covers the basic principles, and the rest is organised by body systems. The book ends with sections on toxicity and prescribing practice.

Key Features:

- Integrates basic science pharmacology, clinical pharmacology and therapeutics.
- Brief review of pathophysiology of major diseases.
- Case histories and self-assessment questions (and answers).
- Tabular presentation of all common drugs within each class.
- Section on further reading.

Medical Pharmacology at a Glance 7e

B2316 - £23.99 Neal

120
pages

Widely recognised as the best starting point for pharmacology study, the internationally best-selling *Medical Pharmacology at a Glance* is an ideal companion for all students of the health sciences.

Key principles are supported by coloured schematic diagrams - invaluable as both an introduction to medical pharmacology, and revision in the run-up to pharmacology exams. Revised and thoroughly updated throughout, and reflecting changes to the content and assessment methods used by medical schools, *Medical Pharmacology at a Glance*:

- Introduces the basic principles of drug action, interaction, absorption and excretion.
- Bases chapters on diseases and syndromes, for clinically-focused learning.
- Includes references to the pathophysiology of disease, to aid understanding of drug choice and action.
- Indicates the therapeutics of choice for specific disorders and conditions.
- Features cross references between discussion of drug classes and diseases.
- Includes self-assessment cases studies with full answers, for revision and review.
- Features a new chapter on immunosuppressants and antirheumatoid drugs.

Now includes a brand new companion website, with cases and fully downloadable flashcards, at www.ataglanceseries.com/pharmacology

Merriman's Assessment of the Lower Limb 3e

B2226 - £44.99 Yates (paperback)

584
pages

Assessment Of The Lower Limb is the benchmark textbook of lower limb examination and assessment. The third edition retains the logical approach and comprehensive coverage of its predecessors, but adds many new exciting features, including an all-new colour design, colour line drawings, new contributors, thorough updating of all chapters – many of which have been completely rewritten – and an entirely new chapter on functional assessment. The DVD provides extensive videos of assessment techniques and illustrations: practitioners with patients and models show how to assess all parts of the lower limb, and evaluate various conditions.

Mosby's Pocket Dictionary of Medicine, Nursing, and Health Professions 7e

B1605 - £25.99 Mosby

1,478
pages

This convenient, concise version of the best-selling *Mosby's Dictionary of Medicine, Nursing and Health Professions*, provides condensed definitions to incorporate only the most essential information. *Mosby's Pocket Dictionary* includes all of the information you need, including content on diseases, procedures, equipment, drugs, and so much more. Screened thumb tabs make it easy to locate definitions quickly, and a list of common medical abbreviations printed in the front and back covers make this a perfect reference for clinical practice.

Neale's Disorders of the Foot 8e

B1502 - £65.99

Frowen, O'Donnell, Burrow & Lorimer

716
pages

Neale's Disorders of the Foot remains the essential resource for students and practitioners of podiatry. All the common conditions encountered in day-to-day podiatric practice are reviewed and their diagnoses and management described along with areas of related therapeutics. Students will find in this one volume everything they need to know about foot disorders and their treatment in order to pass their examinations, while practitioners will continue to appreciate the book's accessibility and relevance to their daily practice. The new eighth edition is more indispensable than ever before with all contributions revised and brought up to date, colour photographs throughout, an all-new clear and accessible full colour design, and its own website including a full image library, video clips of key techniques and interactive self-assessment questions. Whether you need quick reference or more detailed information, the new and improved Neale's Disorders of the Foot is ready to serve the needs of a new generation of podiatry students and practitioners.

Key Features:

All essential material on common foot disorders and their management is covered, which is required by those studying for their first degree in podiatry.

- Quick and easy access to information is offered through a detailed contents list, comprehensive index, and clear layout with good use of headings.
- Quick and easy learning features make this an ideal text for self-directed study and revision.
- Up-to-date information covers the conditions most commonly encountered in day-to-day practice.

Pocket Podiatry: Functional Anatomy

B2303 - £26.99 Watkins & Mathieson

336
pages

Functional Anatomy gives you all the essentials of examination and diagnosis in a convenient, user-friendly format. With the emphasis on practical, step-by-step guidance, this handy volume is specially designed to include helpful diagrams, tables, tips and summary boxes to give you quick access to key information with the minimum of fuss.

With its clarity and portability, students will find the Pocket Podiatry series an invaluable companion to their studies, while practitioners will appreciate its clinical orientation and concision.

Pocket Podiatry: Footwear and Foot Orthoses, 1st Edition

B2310 - £26.99 Williams & Nester

176
pages

Footwear and Foot Orthoses provides students and clinicians with a guide to the information they require to underpin their clinical decision making. Pocket Podiatry provides all the essential information for a modern Podiatric practice. Examination and diagnosis, aetiology, prognosis and management are provided in a practical and informative manner.

With its clarity and portability, students will find the Pocket Podiatry series an invaluable companion to their studies, whilst practitioners will appreciate its clinical orientation and concise format.

Podiatric Assessment and Management of the Diabetic Foot

B1812 - £35.99 Foster

320
pages

BEST
SELLER

Written specially for podiatrists by a podiatrist and packed with practical tips and advice, this unique book gives those working with the diabetic foot fresh insights into the role of the podiatrist in diabetic foot care and the many ways in which outcomes for diabetic foot patients can be improved.

Using a very practical approach with case histories and clinical tips, this book describes how podiatrists can accurately assess and efficiently manage the diabetic foot, and looks at how podiatric care should be adapted according to the type and stage of foot being dealt with. Detailed management programmes geared to all types of patient from low risk to high risk, clear guidance on when to seek the advice of other members of the multidisciplinary team, and the rationales behind all podiatric treatments for diabetic feet are clearly discussed, along with detailed descriptions of techniques and procedures.

Principles and Practice of Managing Pain

B1503 - £21.99 Parsons & Preece

216
pages

The book also considers the experience of pain from the patients' perspective, to help healthcare students better understand the needs of patients who are in pain and how they can improve the care they give.

Case studies, tools for decision making, insights on patient experiences and reflective exercises provide opportunities for you to reflect upon your own practice and to develop problem-solving and critical thinking skills. This practical introductory text provides an accessible guide to pain and how it affects patients and care giving. It considers:

- Different pain types including acute, chronic and palliative.
- Assessing pain.
- Treatment and pharmacology of pain control.
- Challenging situations and dilemmas.
- Communicating with patients in pain.
- Ethical and legal aspects of treating pain.

Ross and Wilson - Anatomy and Physiology in Health and Illness 11e

B1515 - £39.99 Waugh & Grant

512
pages

Ross and Wilson remains the anatomy and physiology textbook of choice for the majority of healthcare students. Each chapter provides an explanation of the normal structure and functions of the human body and the effects of disease or illness on normal physiology. The text is written in straightforward language and is complemented by over 400 extensive clear, colour illustrations.

Key Features

- Highly illustrated with clear line diagrams, mostly in colour.
- Regular sequences of headings, lists and bullet points help with learning and revision.
- Learning outcomes related to the sections within each chapter.
- A glossary of common prefixes, suffixes and roots commonly used in anatomy and physiology.
- An Appendix containing useful biological values for easy reference.
- An accompanying colouring and workbook that facilitates structured learning and revision of the material in this book.
- Access to electronic ancillaries offering a fully searchable, customisable electronic version of the text, high quality animations, web links to supplementary websites, MCQs and an audio pronunciation guide.

The Study Skills Handbook 4e

B1510 - £14.99 Cottrell

360
pages

A no-nonsense, practical guide to help students maximize their potential during their study time. From preparing students for what to expect from Higher Education, encouraging them to think about the skills they already have, providing resources to help them evaluate and manage their own learning and develop good study habits, to helping them understand how learning, intelligence and memory work. The book is packed with sensible suggestions, self-check tables and lots of illustrations. The Study Skills Handbook is an invaluable companion for any student.

**Transforming Practice through Clinical Education, Professional Supervision and Mentoring**

B1811 - £32.99 Rose & Best

382
pages

This publication aims to be a user-friendly resource for supervisors to develop their practice grounded in current theory and evidence. The publication extends beyond past notions of student supervision to include supervision of professionals in their work place and the emergent importance of professional mentoring for ongoing professional development. The publication is written from the perspective of a broad range of health science practitioners, including audiology, dietetics, nursing, occupational therapy, pharmacy, physiotherapy, podiatry, prosthetics and orthotics, radiography, and speech-language pathology. Acknowledging that health science professionals work in busy and often stressful environments, there is a deliberate intention to present complex theoretical material in a simple and person-centred format.

**50+ Foot Challenges**

B2304 - £27.99 Thomson & Gibson

420
pages

50+ Foot Challenges: Assessment and Evidence-based management retains all the benefits of the popular first edition but adds more cases, more illustrations, new sections and invaluable appendices. The same illustrated case-history format as in the first edition presents readers with the clinical problems of each disorder. In each case, a problem-solving approach is encouraged through a question-and-answer format. This guides the reader to the appropriate diagnosis and treatment plan. Clinical tips for improving practice are included and each study concludes with a short list of key points and references to further reading.

Editions are correct at time of going to press but are subject to change without notice.

The patient record system for foot care professionals S2350

*Screen images may change in the published product

What is footware?

footware is a new computer-based patient record system for foot care professionals, designed in conjunction with a foot care professional.

Why use footware?

footware gives you, the professional, total control to record every step of a patient's treatment, and store the information to create a complete and easily accessible treatment history.

Features:

- Record patients' personal details and medical history, including vascular, neurological & biomechanical assessments
- Record the treatment given at every stage
- Add / remove GPs and surgeries
- Adjust appointment times and durations
- Schedule appointments quickly and easily
- Record patient payments and print invoices
- Photograph the patient, using either an in-built camera or separate device, and store the pictures for reference

A unique feature of **footware** is the skin and nail conditions section under the assessment tab. This allows you to colour code the skin or nail condition, by simply painting the area using your mouse. You can then store this image for future reference, and add further notes to it as required.

footware can be easily customised to meet your individual needs:

- You can select to switch on and off several features of assessment. For instance if orthotics is an area that you don't currently assess, you can switch it off. Don't worry though; you can switch it on again at any time as required.
- You can easily edit the stored lists of medicaments, fees, where the treatment takes place, etc to suit your evolving needs.

footware has four main sections for recording information:

- Patient personal details
- Foot care assessment
- Foot care treatment
- Appointments

Why do I need a new patient record system?

Traditional database systems for professionals will fall into one of two categories, paper-based or computer-based, both of which have severe limitations. Paper-based systems tend to be bulky, taking up lots of space and growing exponentially as your practice develops. Index cards will fade with time, become crumpled and sometimes lost. Meanwhile most computer-based systems have strict user requirements – you might need to install additional software alongside the system, it might require a large amount of free space on your hard drive or the licence might limit you to only installing the system on one computer.

footware, however, is completely different and will reduce the footprint of your current system. **footware** will run on all Microsoft operating systems from Windows XP to Windows 8, and will not take up much space on your hard drive or slow your computer down as nothing is actually installed on your computer (except for backed up data). Instead **footware** runs from a microSD card, which is fully portable and allows you to work wherever you decide. In fact, it is so small you can even carry it on your keyring!

But don't let the small size fool you; this is a powerful patient record management system!

Extra benefits to footware:

- Capacity to track your record of Continuing Professional Development
- Access to a word processor allows you to write letters without leaving the system – there are a number of template letters and advice sheets prepared, all of which are easily editable for your requirements
- Includes daily, monthly and yearly accounts
- Can be used on any Windows PC, laptop or tablet simply by inserting the USB adapter

Admin and setup

Skin and nail condition section

footware is the only software you need to efficiently and cost-effectively manage your foot care practice, and is already used by a number of foot care professionals.

E4962 - £8.20 Heel block

Assists in the collection of clinical waste.

Body Block

E4000 - £34.00

Bodyblock fills the gap in the market for a hygienic multidisciplinary, multipurpose support block. Its versatility is on account of different heights on each of its 4 sides creating different elevations. Simply flip it for a different height.

It can be used to support the head, legs, heels or arms and can also be used as knee spacer. It has applications within the health, beauty and exercise sectors and has the advantage of making the practitioner's task easier whilst keeping the client or patient comfortable and in an optimum position. Bodyblock is made of polyurethane and is CE marked. The most practical way a bodyblock can be cleaned is with surface medical disinfectant sprays but it can also be autoclaved or put in the dishwasher. It's so light it floats like a cork, weighing only 300g, yet robust enough to elevate the heaviest limbs.

Tuli's Gel Heel Cups - £12.25

D5940 Standard - up to 80kg
D5942 Standard - over 80kg
D5945 Heavy duty - up to 80kg
D5947 Heavy duty - over 80kg

TuliGel is a specially formulated Polymer that is lighter, softer and more resilient than the material used in other heel cups. The unique character of TuliGel, combined with the patented waffle design, provides the ultimate in shock absorption.

Standard GEL Heel Cups are for everyday use.

Heavy Duty GEL Heel Cups for high impact activities.

Orthofit - the orthotic that fits all patients' shoes

Orthofit is a revolutionary product that has been developed by a team of footcare professionals in both Europe and America. This partnership of podiatrists, orthotists and material engineers has produced an orthotic that will fit easily into any shoe.

Elegantly Thin

Orthofit has been designed to offer the correct profile in an elegantly thin, yet exceptionally strong material. Its design means that the bulk so often present to achieve this profile in other orthotics, is not needed on Orthofit – meaning it will fit all patients' shoes.

Exceptionally Strong

The ultra strong, technologically advanced high performance semi crystalline thermoplastic polymer material, comes with a lifetime guarantee.

Easy to Fit

Can be used straight out of the pack or can be easily heat moulded, using the Orthofit oven, to suit a patients individual requirements.

Easy to Customise

Orthofit's unique slim profile and exceptional strength means a custom orthotic can be created with or without a positive cast. This unique combination allows practitioners to customise or manufacture a prefab into a functional device, cost effectively, in just a few minutes without undue consideration of the patient's weight or activity.

Dressings

Acrytensil

P4855 - £3.00 Standard - Skin dressing - 10ml
P4851 - £3.00 Extra Hard - Nail dressing - 10ml
P4862 - £1.65 Solvent - 10ml

Acrytensil is a quick drying, porous plastic dressing for nails and skin.

Uses include:

- A dressing for fissures and breaks in the skin.
- As a securing agent for stainless steel braces.
- As an aid in the treatment of onychomycosis.
- As a light application to protect unbroken chilblains.

Kaltostat

D5626 - £9.85 5cm x 5cm (box of 10)

Calcium sodium alginate wound dressing.
 Absorbent and haemostatic.

Mefix

- D5621** - £1.45 2.5cm x 5m
- D5622** - £2.55 5cm x 5m
- D5623** - £4.65 10cm x 10cm

Soft and elastic self adhesive fabric which gives excellent air permeability. Also autoclavable. 5m length available in three sizes.

Mepore

Mepore Roll

- D5531** - £3.70 4cm x 5m
- D5532** - £5.05 7cm x 5m

Mepore Dressing

- D5534** - £7.30 6cm x 7cm (pack of 60)

Mepore is an air permeable, self-adhesive dressing ideal for low to moderately exuding wounds. Its skin friendly water based, solvent free polyacrylate adhesive, provides a gentle but secure fixation.

Non-Adherent Sterile Dressing

- D2030** - £0.13 Single 5cm x 5cm

Skintact

- D5568** - £1.35 5cm x 5cm (pack of 10)
- D5568-100** - 5cm x 5cm (pack of 100) - £11.80

Perforated film absorbent dressing.

Softsorb Swabs

- D2031** - £0.15 7.5 x 7.5cm - Pack of 5

- Non woven swabs.
- 4 ply.
- Sterile.

Felts and Foam

Assorted Padding Set - £11.40 D4561

This kit represents excellent value when compared to buying the items individually.

Comprises:

- 1 x 5mm felt
- 1 x 7mm felt
- 1 x 7mm swanfoam
- 1 x fleecy web

Fleecy Foam

- D6006 - £1.95 5mm (1 Sheet)
- D6006-4 - £7.80 5mm (4 Sheets)
- D6008 - £2.15 7mm (1 Sheet)
- D6008-4 - £8.60 7mm (4 Sheets)

Fleecy Foam is a soft open cell polyurethane foam with the added strength of a bonded fleece surface. Highly compressible with instantaneous recovery, ideal for light comfort cushioning. Hapla Fleecy Foam provides a smooth surface next to hosiery.

Fleecy Web

- D4568 - £1.60 (1 sheet)
- D4568-4 - £6.40 (4 sheets)

100% cotton padding with a raised fleecy surface - widely used to protect sore and tender skin from friction and rubbing. Transverse stretch allows Fleecy Web to conform to the skin which prevents creasing and provides comfort.
Size: 40cm x 22.5cm

Foam-O-Felt

- D6002 - £4.20 5mm (1 Sheet)
- D6002-4 - £16.80 5mm (4 Sheets)
- D6004 - £5.75 7mm (1 Sheet)
- D6004-4 - £23.00 7mm (4 Sheets)

Pure 100% wool felt bonded to a closed cell latex foam surface - absorbs pressure and cushions impact. Ideal for older patients' feet where the natural fibro fatty tissue has broken down.

Hapla Pre-cut Paddings

- D2000 - £3.10 Round Bunion Fleecy Web
- D2001 - £3.95 St George Cross Fleecy Web
- D2002 - £2.75 Crescent Corn 5mm Felt
- D2003 - £3.95 Oval Bunion 3mm Felt

36 per pack.

Moleskin

- D6010 - £4.25 23cm x 70cm Roll
- D6012 - £11.65 23cm x 3.0m Roll

A woven 100% cotton fabric, which is lightly raised on one side. Used as a shield against abrasion and for splinting.

Nuprene

- D6014 - £1.90 5mm (1 Sheet)
- D6014-4 - £7.60 5mm (4 Sheets)
- D6016 - £2.25 7mm (1 Sheet)
- D6016-4 - £8.80 7mm (4 Sheets)

Nuprene is a soft open cell polyurethane foam, highly compressible with instantaneous recovery, ideal for light comfort cushioning.

Poron

- D6020-4 - £10.30 Non Adhesive 3.2mm (4 Sheets)
- D6022-4 - £16.15 Adhesive 3.2mm (4 Sheets)

A skinned, closed cell polyurethane foam - absorbs and redistributes underfoot pressures, the material returns to its original thickness in a fraction of a second and will not bottom out.

Semi-Compressed Felts

- D4562 - £3.40 5mm (1 sheet)
- D4562-4 - £13.60 5mm (4 sheets)
- D4563 - £4.35 7mm (1 sheet)
- D4563-4 - £17.40 7mm (4 sheets)

A mixture of 70% wool and 30% viscose which provide a cost effective alternative to 100% wool felt with good performance. A highly versatile padding which can be easily cut and shaped, providing excellent pressure absorption. Available in single sheets for low volume users.

Size: 45cm x 22.5cm
Available in two thicknesses: 5mm and 7mm.

Swanfoam

- D4564 - £2.30 5mm (1 sheet)
- D4564-4 - £10.20 5mm (4 sheets)
- D4565 - £2.80 7mm (1 sheet)
- D4565-4 - £10.99 7mm (4 sheets)

Closed cell latex foam bonded to a brushed fibre surface - absorbs pressure with instantaneous recovery, ideal for underfoot pressure redistribution.

Size: 45cm x 22.5cm
Available in two thicknesses: 5mm and 7mm.

Tubular Foam (Tofoam)

- | | |
|----------------------------|----------------------------|

D5506 - £2.80 Blue Grade - 100% Cotton Size 12

20m roll.

Tubigauze Applicator

T4754 - £2.99

Size: 00

Tubinette Gauze Applicator

D5563 - £8.75

Stainless steel applicator for use with all three sizes of tubinette gauze.

Tapes

Elastic Adhesive Bandage

D5980 - £2.40 2.5cm **D5982** - £3.05 5cm **D5984** - £2.65 7.5cm

4.5m length available in two widths.

Hapla-Band

D4590 - £8.30 1.25cm (4 rolls)
D4591 - £5.40 2.5cm (2 rolls)
D4592 - £8.10 5cm (2 rolls)
D4593 - £5.90 7.5cm (1 roll)

Flesh coloured, thin hypoallergenic bandage, Hapla-Band has elastic wrap threads which allow the bandage to stretch and recover longitudinally whilst remaining laterally rigid. Due to the extensibility of the strapping it is ideal where a light compression is required in conjunction with padding. Supplied on backing paper it can be easily and accurately cut to size. 10m roll available in four widths.

Non Stretch Sports Tape

D5986 - £1.75 2.5cm **D5988** - £2.82 3.8cm **D5990** - £3.30 5cm

13.7m length available in three widths.

Podiatrists have noted a frequent **ageing of the natural ball of the foot** with their patients. The ageing of the natural footpad is very painful and needs a **long-lasting solution**: Millet Innovation has developed a **substitute** for the human footpad:

* 3 patented materials:

EPITHELIUM 26®:

Adheres to the skin and prevents friction. Washable.

EPITHELIUM 29™:

Helps to evenly distribute pressure across the surface of the lesion, prevents friction and can be used as a dressing.

EPITHELIUM™ Activ:

Gives long lasting protection by evenly distributing pressure and mimicking the properties of normal healthy plantar skin. Washable.

Blister Protectors for Diabetics

D5183 - £5.20

- Protects the epidermis and provides relief when a blister has formed but has not burst.
- Epithelium™ Activ self-adhesive gel limits rubbing on the surface of the skin.
- Repositionable, they unfold without any pain even on hairy areas.
- Can be used in all shoes (town, sport, house).
- Washable by hand with soap and water.
- Life span: 5 uses on average.

Pack of 2

Callous Patch for Diabetics

D5180 - £6.00

- The effectiveness of these self-adhesive dressings is due to Epithelium™ Activ silicone gel which evenly distributes pressure.
- May be worn in all types of shoes (formal, sport, house).
- Hand-washable with soap and water.
- Lasting quality: One dressing can be used up to 5 times (not to be worn at night).

Pack of 3

Digitop with Epithelium 26® - £7.20

- D5060 Pack of 2 - 23mm width
- D5061 Pack of 2 - 26mm width
- D5062 Pack of 2 - 36mm width

Alleviation of pain caused by apical heloma's, corns and ingrowing toenails.

- Epithelium 26® redistributes the pressure on the toes and protects them from trauma.
- Easy to position.
- The elastic material of the Digitop helps it to stay in place.
- Thin, soft and comfortable.
- In 3 sizes, will fit any toe.

DIGITUBES® with Epithelium™

D5070 - £8.00 1 each of all 3 sizes

Preventive care and reduction of pain caused by blisters, heloma's, calluses and hammer toes.

Available in 3 sizes: 22mm, 25mm & 33mm

- Distributes pressure & relieves pain instantly.
- Minimal thickness (1mm) of gel for comfort.
- Seamless to avoid irritation.
- Available in 3 sizes (S,M,L).
- 3 x 10cm tubes per pack - cut to size.
- Durable & cost-effective.
- Hand washable in warm soapy water.
- Average lifespan of 1 month.

Double Protection Cushions with Epithelium26®

D5010 1 pair - small
D5011 1 pair - medium
D5012 1 pair - large

- Contains Epithelium 26®: Distributes pressure and relieves pain instantly.
- Minimal thickness 2mm of cushion under the ball of the foot and 1 mm pad placed on the bunion = efficient protection with no added pressure in the shoe.
- Available in 3 sizes (S, M, L).
- Durable & cost-effective.
- Machine washable at 40°C.
- Average lifespan of 6-12 months.

Hallux Valgus Bunion – Corrective Orthosis

D5055 - Small
D5056 - Medium
D5057 - Large

- To correct and limit the development of Hallux valgus (bunion) while relieving joint pains.
- Corrective orthosis can easily fit in all kinds of footwear due to its flexible and ultra thin patented design.
 - The patented external tendon in silicone EPITHELIUM™ FLEX enables the straightening-up of the big toe and also enable the absorption of pressures on the bunion and thus relieve pain.
 - The EPITHELIUM™ patch creates a comfortable end-stop with the shoe-support and thereby allows pushing the first metatarsal back.
 - The extra thin metatarsal bangle of contention shall inhibit the squashing and the widening of the forefoot.
 - Machine-washable at 40°C. A long lasting life span.

Hallux Valgus Protection for Diabetics

D5181 - £6.00

- The self-adhesive dressings provide relief thanks to Epithelium™ Activ silicone gel which spreads pressure and reduces rubbing that causes pain.
- Very thin, they can be used in all shoes.
- Washable with soap and water.
- Life span: 5 days on average / dressing (can be worn at night).

Pack of 2

Hammer Toe Cushions with Epithelium™

D5150 Small - 1 pair women
D5151 Large - 1 pair men

- These Epithelium™ pads are placed under the toes, allowing the toes to comfortably stretch and thereby limit the formation of soft and dorsal corns.
- Their shape means they adapt perfectly to the space located under the toes.
- The flexible elastic band is placed around the third toe to hold the pad in place.
- These pads are pleasant to wear thanks to the material selected for its softness and ability to absorb perspiration.
- Wear directly against the skin. Wear socks, tights or stockings over the device for optimal comfort.
- Can be machine-washed at 40°
- Duration of use: several months on average.

Plantar Cushions with Epithelium 26® - £16.95

- D5000** 1 pair - small
- D5001** 1 pair - medium
- D5002** 1 pair - large

Relief of pain caused by dropped forward metatarsal arch or subluxation of a metatarsal head.

- Contains Epithelium 26®:
- The only patented silicone gel on the market.
 - Substitute for the natural plantar pad.
 - Distributes pressure & relieves pain instantly.
 - Minimal thickness (2mm) of cushion for comfort.
 - Each pack contains left & right cushion.
 - Durable & cost-effective.
 - Machine washable at 40°C.
 - Average lifespan of 6-12 months.

Prevention Plaster with Epithelium 28®

D5050 - £6.99

Ideal for biomechanical dressings.

- Each sheet is 1mm thick with fabric on one side and self-adhesive on the other.
- Ideal for Hallux Valgus care, a protective dressing with Epithelium 28® alleviates pain caused by friction and excessive pressures.
- The cloth support enables an optimal use even after several washings.
- Sheet size is 4" x 4".

Protection For Hallux Valgus with Epithelium 26® - £11.50

- D5040** Shoe size 3 – 5½
- D5041** Shoe size 5½ – 7½
- D5042** Shoe size 8 – 10½

A simple mechanical protection to avoid friction and reduce the pain of Hallux Valgus.

The Epithelium 26® is only 1mm thick, so there is no extra pressure on the bunion.

Sold singly.

Sheet Of Epithelium Active® - £14.00

D5115

Prevention of blisters caused by friction (walking, new shoes).

- Corns and Calluses.
- Local inflammation.
- Epithelium Active® is self-adhesive.
- It can be removed without discomfort.
- Minimal thickness (1mm).
- Distributes the pressure over the protected area.
- Can be easily cut to the required size.
- 20cm x 20cm sheet.
- Fabric one side.

Sheet Of Epithelium 29®

D5125 - £11.50 Gel square
D5128 - £15.00 Fabric one side

- Epithelium 29® is also ideal for biomechanical dressings.
- After callus treatments.
- Over Hallux Valgus or Quintus Varus.
- An excellent load distributor and a great abrasion inhibitor.
- It is naturally self-adhesive.
- Sheet size is 20cm x 20cm.
- Available in 2mm thickness, in two versions:
 - Plain gel version: alleviates pain between the toes and is very comfortable.
 - Single-sided fabric: reinforces and improves the life of the plasters.

Toe Separators with Epithelium™ - £6.90

D5080 Pack of 6 - small
D5081 Pack of 4 - large

Separates toes by a few millimetres to prevent friction, chaffing, and the formation of interdigital heloma's.

- Load distribution and anti-friction properties.
- Its shape and adhesiveness keeps it in place.
- A very soft gel which adapts to the shape of the foot.
- Available in 2 sizes:
 - Large fits between the 1st and 2nd toes.
 - Small fits between the other toes.

Toe Tip Protections For Hammer Toes with Epithelium 26® - £12.65

D5170 1 pair - shoe size 3 – 5½
D5171 1 pair - shoe size 5½ – 7½
D5172 1 pair - shoe size 8 – 10½

- Hammer toes.
- Claw toes.
- Dorsal corns.
- When the Epithelium 26® toe protector is placed on top of toes, it distributes pressure and limits the formation of corns on the tops of toes.
- The integrated protective gel is only 1mm thick.
- The fabric is soft and absorbs perspiration, making this device very comfortable to wear.
- Provides warmth to the tips of toes, even with poor circulation.
- Can be machine-washed at 40°C.
- Average duration of use: several months.

Verruca Patch for Diabetics - £7.55

D5182

- Relieves pain from walking thanks to Epithelium™ Activ gel that spreads pressure.
- The occlusiveness of the gel encourages the verruca to disappear.
- Very thin, they can be used in all shoes (town, sport, house).
- Washable with soap and water.

Life span: 5 days / dressing on average.
Pack of 5.

Hapla-gel

The softer way to protect feet

An advanced polymer gel system of dressings and appliances for the relief of pressure and friction, containing mineral oil to soften and lubricate the skin for greater comfort.

Medical Grade Gel

Hapla-gel is made from pure medical grade ingredients. It is non toxic and hypoallergenic.

Moisturises and Lubricates

The mineral oil in Hapla-gel slowly permeates the skin during wear to soften and lubricate and help keep it supple.

Washable, Reusable, Durable

Careful hand washing and care of Hapla-gel extends the life of the product allowing repeated use after many applications without loss of the original properties.

Protects and Cushions

Pressure is absorbed and redistributed by Hapla-gel's soft elastic structure, which allows movement at one surface without influencing movement at the other, removing the effect of friction on the skin.

Conforms for greater Comfort

Hapla-gel's softer gel structure allows flow when weight or pressure is applied providing greater comfort even over bony prominences. Once the pressure is removed the gel rapidly returns to its original shape.

Digital Cap - £3.45

- D5673 Small
- D5674 Medium

Elasticated closed end tube with a full polymer gel lining. 2 pieces fully lined with gel pad.

- All round protection including the apex of the toe.
- Ideal for hammer toes.
- Can be cut to a shorter length if required.
- Sizes: Small & Medium.

Digital Pad

- D5670 - £5.45 Small
- D5671 - £5.60 Medium
- D5672 - £5.95 Large

Elasticated tube with circular polymer gel pad. 6 pieces fully lined with gel pad.

- Protects against pressure and friction on corn sites.
- Softens corns helping and relieving the build up of hard skin.
- Sizes: Small, Medium, Large.

Digital Strip

- D5677 - £11.75 Small
- D5678 - £11.75 Medium
- D5679 - £12.00 Large

Elasticated tube with a cushioning strip of polymer gel on the inside. 1 x 71cm strip.

- Thicker gel for extra protection.
- Pressure relief for top, bottom or side of toe.
- Cut to size as required.
- Sizes: Small, Medium, Large.

Digital Tube

- D5676 - £7.75 Small
- D5695 - £8.20 Medium
- D5696 - £8.35 Large

Elasticated tube with full polymer gel lining. 2 x 15cm tube fully lined with gel.

- All round toe protection.
- Slim design for inshoe comfort.
- Cut to size as required.
- Sizes: Small, Medium, Large.

Gel Dot

- D5694 - £6.85

Preformed 100% polymer gel with concave centre. 12 gel pieces.

- Non adhesive soft gel dots offer surrounding protection from pressure or friction on sore spots.
- Can be held in place on skin using retention tape.
- One size.

Metatarsal Band

- D5690 - £6.85 Small
- D5691 - £7.15 Large

Elasticated band with an internal plantar metatarsal shaped gel pad. 1 pair with internal gel pad.

- Protection and cushioning for the full plantar metatarsal area.
- Hallux stitch helps to maintain position and alignment or can be cut if preferred.
- Sizes: Small & Large.
- Small: Size 2-6.
- Large: Size 6.5-12.

Toe Separator

- D5680 - £2.85 Small
- D5681 - £3.05 Medium
- D5682 - £3.30 Large

Preformed 100% polymer gel. 6 piece pack.

- Designed to fit comfortably between toes to reduce pressure and friction.
- Can be trimmed if required.
- Sizes: Small, Medium, Large.

Toe Spreader

- D5683 - £4.85 Small
- D5684 - £5.00 Medium
- D5685 - £5.15 Large

Preformed 100% polymer gel. 6 pieces.

- Interdigital application protecting and realigning hallux valgus and overlapping toes.
- Soft gel design offers excellent comfort.
- Sizes: Small, Medium, Large.

Podiacare Products

In formulating this unique range of footcare preparations, the natural power of essential oils has been harnessed to provide an effective means to smooth and soften dry skin and to bring relief to sore feet. Some essential oils may improve the circulation whilst others bring a lasting freshness and safeguard against fungal infection.

Creams

Barrier Cream

P4621 - £4.90 50ml
P4621-6 - £24.50 6 for the price of 5

A natural cream which creates a barrier to help prevent the spread of infection whilst swimming. Contains essential oils which have been shown to promote healing.

Deodorising Cream

P4572 - £4.90 50ml pot
P4572-6 - £24.50 6 for the price of 5
P4572-12 - £49.00 12 for the price of 10

Controls the foul-smelling foot all day with one application. A combination of essential oils which safely deodorise and reduce offensive odour. Natural antiseptics control fungal infections and irritation between toes.

Hydromid Skin Softening Cream

P4593 - £6.20 50ml

Powerful skin softening cream ideal for use on cracked and fissured feet, leaving the skin softer and pleasant smelling.

Warming Cream

P4573 - £4.90 50ml pot
P4573-6 - £24.50 6 for the price of 5
P4573-12 - £49.00 12 for the price of 10

An invigorating cream to help cold feet warm through. Naturally selected oils to invigorate and improve circulation, producing a warming effect to control and improve cold feet.

NOW YOU KNOW WHY SPLITZ REALLY WORKS

Splitz - clinically formulated for lasting soft, smooth feet.

Splitz Cream

P4570 - £6.95 30ml

Rough skin, dry heels, split heels, fissures are one of the major problems confronting all practitioners.

Up until now the only products available have been those that just soften the skin and hopefully keep it supple, but do not actually resolve the problem satisfactorily.

Splitz Cream has been specially formulated after several years research.

Its preparation is unique in so far that whilst other products merely moisturize the skin, Splitz Cream gets to the cause of the problem and helps heal fissures, dry and rough skin rapidly.

Said to be the best product available to professionals.

The Original Foot Massage and Lubricating Cream

P4571 50ml - £4.90

P4571-6 50ml (6 for the price of 5) - £24.50

Replacement gasket for Prestige 2100 autoclaves (sold singularly).

Replacement Gasket for 134° Autoclave

E4647 - £29.85

Replacement gasket for 134° autoclave.

Standard Instrument Basket for Prestige Classic 2100

E4653 - £41.00

Sterilization Pouches

M4610 - £6.15 Pouch size 90 x 230 (mm)

M4611 - £11.72 Pouch size 133 x 254 (mm)

- High quality sterilisation pouches at low prices.
- Self seal, transparent pouches.
- Suitable for steam or gas sterilisation.
- Accurate sterility indicator.
- CE marked.
- 200 Pouches per pack.

Dopplers

Mini Dopplex Doppler (NS)

- E4765** - £446.75 Mini Dopplex Doppler with 8MHz Probe
- E4766** - £494.80 Mini Dopplex Doppler with EZ8 Probe
- E4770** - £2.40 Ultrasonic Gel 60ml

The Mini Dopplex non-directional Doppler provides all the standard features of a traditional Doppler. The Mini Dopplex comes with the new 8MHz high sensitivity Easy8 probe which incorporates wide beam technology to allow easy location of the vessel. It is also easier to maintain vessel contact during inflation and deflation. The Mini Dopplex is equipped with a display using LED's, showing On/Off and Battery Low lights.

Requires 1 x 9v battery

UltraTech Vascular Doppler (NS)

E4775 - £245.50

- Small, lightweight and highly sensitive doppler device.
- Built in loudspeaker with rotary volume control.
- Monitoring also available via optional headphones.
- Supplied complete with an 8MHz vessel location & pulse / systolic monitoring transducer.
- Easy to clean device and probe.
- 9v battery (supplied) gives in excess of 9 hours continuous use.
- 3 year warranty.
- Additional probes are available as an option.

Sonotrax Vascular Doppler

E4740 - £192.50

Supplied complete with a 4MHz waterproof probe, the Sonotrax Vascular Doppler provides healthcare professionals with a cost-effective and versatile solution for routine examinations.

Features:

- High-quality sound from 0.5W built-in speaker.
- Supports interchangeable Sonotrax probes.
- Dial operated volume control.
- Automatic power off.
- Requires a single 9 v battery [not supplied].
- Complete with carry case and full user instructions.

Specifications:

- Dimensions: 32 x 85 x 138mm (D x W x H)
- Weight: 290g

Ultrasonic Gel

E4770 - £2.40

Available in 60gm tubes. Essential for effective identification of Doppler sounds, and provides patient comfort during Doppler scanning.

NS denotes a non stock item. Please allow up to 21 days delivery.

Cryosurgery

CryoPen B (NS)

E9000 - £880.00

E9001 - Replacement Cartridges x 6 £149.99

Offering exceptional performance in a compact, highly portable device, the CryoPen B delivers a millimetre-accurate stream of cryogen directly to the lesion.

By avoiding healthy tissue, the CryoPen can reduce patient discomfort and allows a longer treatment giving improved patient outcomes. The standard white dot applicator allows treatment of lesions from 2 to 6mm. The CryoPen is controlled with an intuitive on/off switch and uses disposable cartridges with built-in filters which introduce cryogen at -89°C.

Features

- Intuitive on/off control.
- Highly focused spray prevents damage to healthy tissue.
- Lightweight, highly portable device.
- Standard white dot applicator for treatment of lesions from 2 to 6mm.
- Accepts 23.5g cartridges.

Specifications

- Cryogen temperature: -89°C

Drills

Hadewe Helius 40 Dust Extraction Drill

E7014 - £890.75

Introducing the Hadewe Helius 40 Drill.

This drill is widely popular due to the easy handling and low noise level. The drill provides a powerful suction and an integrated labyrinth technology makes this drill one of the most quiet units in the market.

The handpiece motor is designed for long working hours and skin particles are removed via the effective point suction at the top of the handpiece. This ensures for optimal hygienic and effective work. This drill is certified as a class 2A EU-Medical Device unit for the professional, medical Podiatry field.

Features

- Silent soundproofing.
- Slim and easy to handle handpiece.
- Easy to clean unit surface.
- New smaller unit size allows transportation to become easy.
- Modern, easy to clean membrane keyboard.
- Regular and reverse switch (left/right).
- Suitable for all common burs 2,35mm.
- Low vibration and quiet running.

Technical Details

- Total weight : 4.0kg.
- Size : W 313 x H 142 x D 235 mm.
- Voltage 240V, 50 Hz, 550 W, <59 dBA.
- Handpiece : 17-22mm, length: 163mm, weight: 138g.

Please note that this is a non stock item. Please allow up to 10 working days for delivery.

Twister Portable Drill

E6073 - £365.55

The upgraded Twister features an attractive modern design, up-to-date microprocessor technology and a keyboard with soft keys. The softkeys allow the user to vary the speed with the 'plus' or 'minus' keys or programme speed settings that can be accessed via the three memory keys. There is also the option to reverse the direction of rotation or pause rotation using these keys. Practical storage for the handpiece is integrated into the device. The slim shaped gripping case makes fatigue-free and comfortable handling, in both the fist and in the writing position, possible.

Mains operated.

Specifications:

Voltage: 230 Volt / 50/60 Hz
 Power input: 30 Watt
 Speed: Max. 30,000 rpm
 Controller dimensions: L: 160mm x H: 100mm x D: 205mm
 Weight: 1.4kg
 Handpiece dimensions: L: 125mm
 Handpiece weight: 105gms

Designed and manufactured by a leading German manufacturer.

NS denotes a non stock item. Please allow up to 21 days delivery.

Accessories for Twister Drill (NS)

E6075 - £39.90 Foot Switch ON/OFF

E6076 - £70.80 Variable Pedal

Delfino Spray Jet Drill

E6065 - £897.71

The drill is equipped with a two pump system; one compressor pump for air and a tube pump for water. The spray amount is controlled electronically and not pneumatically. As a result the spray amount can be very easily and precisely selected. Air is available from the hand piece even when the spray is switched off. This is a very useful feature as sometimes the practitioner needs to work without spray but needs air to blow away the dust. The illuminated water container holds 500ml of water and can be removed like a drawer at any time as it is not under pressure. The hand piece connection is through a combi plug. For ease of maintenance or repair, the hand piece can be separated from the controller by easily removing the combi plug. This is a big advantage over the commonly used fixed connection.

Mains operated.

Dimensions Unit: H- 13cm x W- 24cm x D- 25cm
 Dimensions Handpiece: L- 140mm x Dia1= 16mm x Dia2= 22mm
 Weight unit: 2.9kg
 Weight handpiece: 112g
 Max speed: 40,000 RPM
 Designed and manufactured by a leading German manufacturer.

Warranty conditions:

One year manufacturer's warranty - (prerequisite postage paid shipping back to supplier.)
 Excludes general wear - e.g. ball bearings, chucks, seals. etc

Accessories for Delfino Drill

E6067 - £35.25 Foot Switch for Delfino

E6068 - £76.80 Variable Speed Pedal for Delfino

Filtaire

Filtaire Model 2000 Air Filtration Unit (NS)

E5200 - £455.00

The Filtaire range has been specifically developed to efficiently eradicate indoor air pollution using a multi-stage radial filtration system. Combining this with a range of contaminant specific carbon filter elements, allows the system to be tailored to the needs of individual applications. With high activity, activated carbons removing vapour phase pollutants whilst highly efficient HEPA grade particulate filters trap particles down to 0.3 micron ensuring the removal of airborne micro-organisms and viruses.

The Filtaire 2000 is a high performance compact solution; the unit will sit unobtrusively in any environment, whilst its performance matches that of many larger machines. The variable speed control incorporated within the electrical plug allows for air recirculation rates to be adjusted to suit changing conditions, whilst it is economical to run consuming a maximum of 120 watts.

The model 2000 is particularly well suited to smaller individual 'treatment rooms' within a medical facility for example, where its high performance will continuously provide exceptionally clean air, improving infection control, removing airborne bacteria, as well as gases and vapours, ensuring a safer and healthier atmosphere. The Model 2000 is portable and will plug into any wall socket, allowing you to position the unit close to the patient's feet.

- Tough robust all-steel construction.
- Easy filter replacement.
- Quiet in operation.
- Does not result in heat loss.
- Interchangeable filter packs.
- Provides focused treatment.

Specifications:

- Dimensions - 33 x 23 x 18cm (H x W x D).
- Weight - 6Kg.
- Electrical - 230V, 91 W, 0.4 amps.
- Airflow - Up to 170 m³/hour (Dependant on filter configuration).

Filtaire 2000 Carbon Pre Filter (NS)

E5210 - £24.40

Carbon Pre Filter for Filtaire 2000 Air Filtration Unit. The carbon pre-filters are used to maintain the life and effectiveness of the main filter.

Filtaire 2000 Main Particle Filter (NS)

E5212 - £61.90

Main particle filter for Filtaire 2000 Air Filtration Unit.

Replacement filters for Model 300 are available, please enquire for details.

NS denotes a non stock item. Please allow up to 21 days delivery.

All sales are subject to the following terms and conditions. No other conditions shall apply unless agreed in writing prior to placing an order.

VAT

Prices quoted are exclusive of VAT and VAT at the current rate will be added to all invoices (except on items which are zero rated for VAT).

PRICES

Prices may be changed without prior notice. Podiacare Ltd reserves the right to correct clerical omissions and errors in this price list.

ORDERS

Due to credit card / bank charges there is a minimum NET order value £10.00 (i.e. all orders must be to the value of £10.00 NET or above).

Orders below £10.00 net will be charged at the £10.00 net minimum order value rate. Cash transactions are excluded from this clause.

All prices are subject to VAT at the current rate.

LIMIT OF LIABILITY

Podiacare Ltd cannot be held responsible in the event of goods not of our manufacture being faulty or delivered late by the delivery agent.

PAYMENT

Orders, including those paid by installments, must be accompanied by payment in full with a cheque or credit/debit card details. Please make cheques payable to 'Podiacare Ltd'.

INSTALLMENTS

Payment by installments is only available on specific items/values as indicated by the company.

Dates to be entered on installment cheques will be supplied in advance by Podiacare Ltd. An administration charge will be applied on default of payment and settlement in full of any outstanding balances automatically becomes due.

Goods remain the property of Podiacare Ltd until payment has been received in full and the final payment has been cleared. On default of payment, we reserve the right to recover the goods and to enter the buyer's premises to do this.

WARRANTY

Carriage charges are excluded under all warranties of goods/equipment.

STOCK AVAILABILITY

NS denotes a non-stock item. Please allow up to 21 days for delivery.

CARRIAGE (UK MAINLAND ONLY)

All orders of **FIFTY POUNDS NET OR MORE** will be **DELIVERED FREE OF CHARGE** to UK Mainland only.

All orders under **FIFTY POUNDS NET** will carry a charge of **£4.50 NET** for administration, handling and delivery.

For carriage to non-mainland UK (including The Channel Islands, The Scottish Highlands and Islands, The Isle of Man, the Republic of Ireland and Northern Ireland) delivery will be charged at the current rates applicable. We will endeavour to use the most economical means of carriage available. To place orders for non-mainland UK please contact us on 01628 632449 or orders@podiacare.co.uk

DELIVERY

Whilst every effort is made to deliver orders within 5 working days, Podiacare Ltd accepts no responsibility or liability for any kind of failure to deliver within the time quoted due to reasons beyond our control.

Please note that goods will not be left unsigned for unless prior instructions are given to Podiacare Ltd to leave in a secure location at time of placing the order. The courier company will only accept alternate delivery instructions from their customer, Podiacare Ltd, not a third party.

Please note: we are unable to deliver outside the E.U.

URGENT 24-HOUR DELIVERY

(Monday-Thursday only, excludes bank holidays)

Order Line 01628 632449

Orders must be placed by **12.00 noon**. This option is only available to the UK mainland.

Next day delivery will be an additional charge of £9.00 net, to your order.

The company reserves the right to select the method of delivery.

The company reserves the right to supply orders in partial shipments and invoice these shipments separately (this will not affect free delivery on orders over £50.00).

RETURNED GOODS - CONDITIONS

Podiacare Ltd. operates a policy of **NO RETURNS** on Creams and Medicaments under any circumstances. Podiacare will only accept returns of other goods by previous agreement from Podiacare Ltd.

All goods returned should be accompanied by the Buyer's customer number and the invoice number on which the goods were supplied. A credit note cannot be issued if this information is not supplied.

Subject to the above conditions, Podiacare Ltd will accept for credit at a sum equal to that which the Buyer paid for the goods;

- Items returned to and received by Podiacare Ltd in a readily re-saleable condition within 10 days of delivery to the buyer.
- Items received by the Buyer in an unusable condition; provided that Podiacare Ltd is notified within 3 days of delivery and that the Buyer returns such items unless otherwise instructed, in writing, by Podiacare Ltd.

Creams and or Medicaments will only be accepted for return and credit for the following reasons:

- To correct an error in delivery
- In response to a product or batch recall instigated by a manufacturer.
- Where products or packages are alleged to be faulty.

All claims for shortages or damaged goods must be made within 3 days from receipt of delivery unless Podiacare Ltd have notified you that there will be a delay in delivery. It is the responsibility of the customer to adequately pack the goods, and return via recorded or registered post. Podiacare Ltd will not take responsibility for lost or damaged goods sent to us.

ORDER QUERIES

Podiacare Ltd operates a policy of **NO RETURNS**.

INCORRECTLY SUPPLIED ITEMS

We will only accept return of items incorrectly supplied, by prior agreement between Podiacare Ltd and the customer. The customer must make notification of error to Podiacare Ltd within 3 days from receipt of delivery.

INCORRECTLY ORDERED ITEMS

Items incorrectly ordered by the customer will not be exchanged. i.e.: If you place an order and fail to give both the product code and a description of the item, Podiacare Ltd reserve the right to either supply, in their considered opinion, the item you require or not supply at all.

SHORTAGE OF ITEMS

Items that are to follow will be notified in your delivery. Any shortages excluding items to follow must be reported to Podiacare Ltd within 3 days from receipt of delivery.

DAMAGED AND FAULTY ITEMS

Subject to the above conditions, Podiacare Ltd will accept back for replacement, items that are damaged or faulty providing notification is made within 3 days from receipt of delivery.

PRODUCT RECALL

Items will be accepted for return or credit in response to a product or batch recall instigated by a manufacturer.
