

WELCOME TO PODIACARE HEALTHCARE

Podiacare Healthcare was created 36 years ago at the request of practitioners and has brought low prices and good quality to the profession, including some of the finest ranges of foot creams and treatments in Europe.

This catalogue replaces and supersedes all previous catalogues.

At the time of publishing all prices are updated and applicable from 01 March 2025* and EXCLUDE VAT.

Please visit our website www.podiicare.co.uk for the updated prices and additional products.

We have included all the traditional products and preparations, which you regularly use, as well as some new items. If there are any additional items you would like us to carry, then please do let us know. Please send any feedback to info@podiacare.co.uk.

HOW TO ORDER

To supply your order we need the following:

- **Your Unique Account Number** (For non-members a Unique Number will be issued on your Invoice for future use).
- **Your Name**
- **Your Invoice Address and your Delivery Address** (only if different from the Invoice address). Please note that goods will not be left unsigned for unless prior instructions are given to Podiacare Healthcare to leave in a secure location at time of placing the order. The courier company will only accept alternate delivery instructions from their customer, Podiacare Healthcare, not a third party.
- **Your Credit/Debit Card details (for phone/post orders)** (Please ensure your cheque details are correct and in full before submitting your order). Preferably please contact us for a total beforehand. For orders posted to us, please do not include any card details. Once the order is received the Podiacare team will contact you for these details.
- The Product **CODE**, a short **DESCRIPTION** and the **QUANTITY** of the Product you wish to order.

Failure to supply any of the above will result in a delay in processing your order.

Pharmaceutical (PH) & Prescription Only Medicines (POM)

Pharmaceutical (PH) / Prescription Only Medicines (POM) Products PH/POM products can only be purchased by qualified practitioner, who will be asked to provide details upon placing an order (e.g. HCPC Registration Number, Membership Number). These products cannot be sold "over the counter" to members of the public.

Foot Orthotics

Foot orthotics should only be purchased by a suitably qualified Practitioner.

McMinn's Color Atlas of Lower Limb Anatomy

B1500 - £57.99

Pages:
192

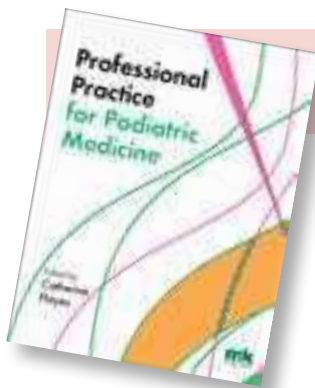

Understand foot ankle and lower limb anatomy visually and clinically.

McMinn's Color Atlas of Lower Limb Anatomy is the ideal study aid or trusted visual reference for the range of students and practitioners who require a detailed understanding of the anatomy of the foot ankle and lower limb. It provides you with the perfect grasp of all the important lower limb structures that are likely to be encountered in practice or in the anatomy lab. Superb images of dissections osteology radiographic and surface anatomy offer an unmatched view of muscles nerves skeletal structures blood vessels and more. Figures are accompanied by concise notes and commentaries as well as orientational artworks to help you locate the structure accurately on the body.

Key Features:

This updated fifth edition offers increased clinical relevance and features an entirely new chapter on *Imaging of the Lower Limb* reflecting the very latest modalities and techniques. It also comes with the complete enhanced eBook for the first time:

- All new state-of-the-art clinical imaging chapter – provides new insights and reflects anatomy as seen in modern practice
- Easily correlates essential anatomy with clinical practice - through over 200 high-quality photographs combined with explanatory illustrations for more complex areas and concise accompanying notes throughout
- Bonus information in Appendices - including practical guidance to administering nerve blocks accurately and effectively in the regional anaesthesia section Expert Consult™ eBook version included with purchase - this enhanced eBook experience allows you to search all of the text figures and references from the book on a variety of devices

Professional Practice for Podiatric Medicine

B1501 - £20.50

Pages:
114

Professional Practice for Podiatric Medicine provides an overview of the challenges facing podiatric clinicians in the United Kingdom. The notion of professionalism and the constructs that underpin service delivery are of increasing concern in the current healthcare climate. The topics covered in this text are timely and relevant to new and current clinicians. Podiatry has undergone many changes over the last two decades, and the foremost change has been an increasing emphasis on professionalism in clinical practice. In this book, several experienced podiatric practitioners and healthcare educators contribute chapters on different aspects of podiatry. Principles of leadership and management (which impact on individual career paths) are discussed, alongside the processes of appraisal, work loading and continuing professional development that will shape the future of podiatry.

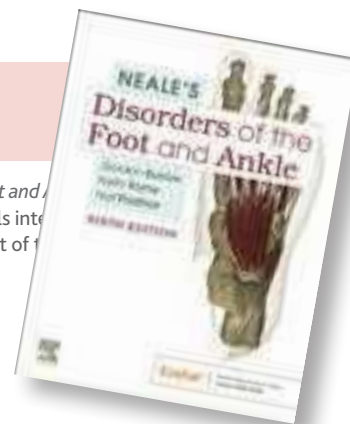

Key Features:

- Professional Identity
- Clinical Professional Practice
- Mentorship for Podiatric Practice
- Healthcare Organisations and Podiatry
- Management and Leadership for Podiatry
- Building Strategic Curricula in Podiatric Medicine
- Human Factors and Critical Reflexivity in Podiatric Practice

Neale's Disorders of the Foot

B1502 - £50.99

Pages:
688

Now in its 9th edition and fully updated to reflect 21st century podiatric practice *Neale's Disorders of the Foot and Ankle* is an essential reading for students entering the profession, qualified podiatrists and other health care professionals. With a renowned team of expert editors and international contributors it gives up-to-date, evidence-based content of foot and ankle disorders. Students should find everything they need within its covers to pass their exams, whilst qualified clinicians will find it a useful reference during their daily practice. All the common conditions encountered in day-to-day podiatric practice are reviewed and their diagnoses and management described along with areas of related therapeutics.

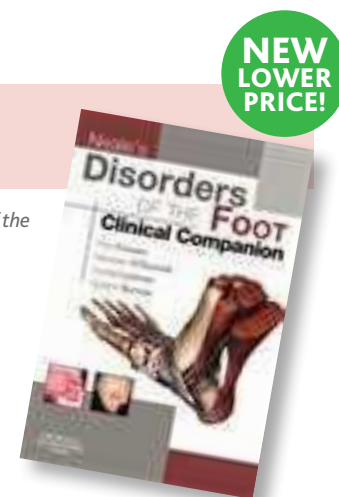

Key Features:

- Fully illustrated in colour throughout including over 500 photographs and illustrations
- Complete coverage of podiatric conditions, including: *Circulatory Disorders, Rheumatic Diseases, Imaging, Foot Orthoses, Pediatric Podiatry, Podiatric Sports Medicine, Podiatric Surgery, Leprosy* and *Tropical Medicine*
- Brand new chapters covering key topics including *Complimentary and Integrated Medicine, Forensic and Legal Medicine, Evidence Based Practice in Podiatry and Pharmacology & Therapeutics*

Neale's Disorders of the Foot: Clinical Companion

B1505 - £29.99

Pages:
344

NEW
LOWER
PRICE!

Neale's Disorders of the Foot Clinical Companion is the essential, portable complement to *Neale's Disorders of the Foot*. It is perfect for putting key information in clinical context. Students and practitioners will love its presentation of tips and valuable treatment notes in a handy format that is easy to refer to in the clinic.

All the common conditions encountered in day-to-day podiatric practice are dealt with, and there are many algorithms for ease of use. This Companion will prove to be a really valuable friend when you need rapid reference to treatment guidelines in the clinic.

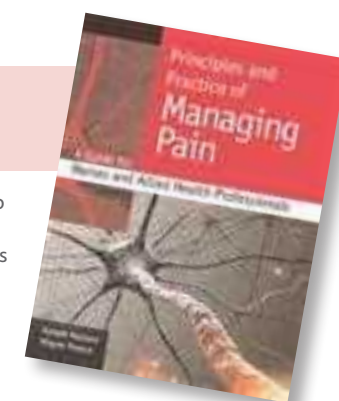

Key Features:

- Practical – puts key information in clinical context
- Portable – fits easily into your bag
- Integrated – referenced back to *Neale's Disorders of the Foot* so the two work together

Principles and Practice of Managing Pain

B1503 - £30.70

Pages:
216

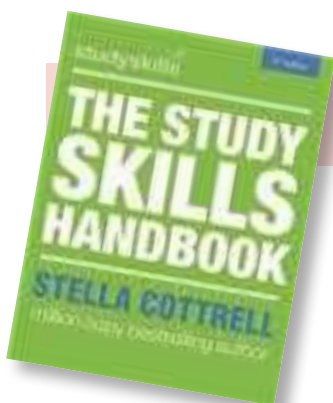

Principles & Practice of Managing Pain, considers the experience of pain from the patients' perspective, to help healthcare students better understand the needs of patients who are in pain and how they can improve the care they give. Case studies, tools for decision making, insights on patient experiences and reflective exercises provide opportunities for you to reflect upon your own practice and to develop problem-solving and critical thinking skills.

Principles and Practice of Managing Pain is ideal for students preparing to practice in a health care environment. This practical introductory text provides an accessible guide to pain and how it affects patients and care giving. It considers:

Key Features:

- Different pain types including acute, chronic and palliative
- Assessing pain
- Treatment and pharmacology of pain control
- Challenging situations and dilemmas
- Communicating with patients in pain
- Ethical and legal aspects of treating pain

Macmillan - The Study Skills Handbook

B1510 - £18.99

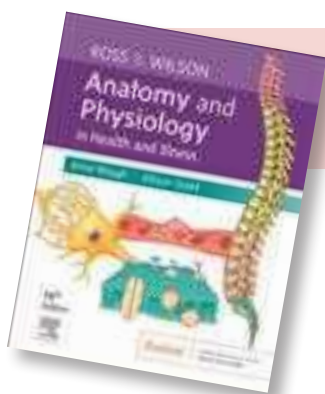

Pages:
448

This is the ultimate guide to study skills, written by million copy bestselling author Stella Cottrell. Her tried and tested approach, based on over twenty years' experience of working with students, has helped over a million students to achieve their potential. When it comes to studying, there is no one-size-fits-all approach. This engaging and accessible guide shows students how to tailor their learning to their individual needs in order to boost their grades, build their confidence and increase their employability.

Fully revised for the fifth edition, it contains everything students need to succeed. This is an invaluable resource for undergraduate students of all disciplines, and is also ideal for postgraduates, mature students and international students. It prepares students for what to expect before, during and after their studies at university.

Key Features:

- Helps students to identify their individual learning style and use it to learn more effectively
- Comprehensive coverage of all the core study skills, including critical thinking, research, academic writing, revision strategies, team work and many more
- Contains a wealth of examples, checklists and hands-on activities to help students apply what they have learnt to their own experiences
- Accessible to visual learners and students with specific learning needs, such as dyslexia
- Additional material on writing skills, including proofreading, editing and writing for different assignments
- New chapters on managing stress and student wellbeing at university, learning in diverse and international contexts and writing essays
- More emphasis on reflective learning
- Extended guidance on how to balance study with work
- More use of visuals to summarise key learning points

Ross and Wilson - Anatomy and Physiology in Health and Illness

B1515 - £35.99

Pages:
598

Now in its fourteenth edition, this best-selling textbook has been honed over many years to provide a clear, straightforward introduction to the human body for students of nursing, allied health or biomedical and paramedical science.

The book covers the core essentials of anatomy and physiology, including basic pathology and pathophysiology of important diseases and disorders. This new edition presents additional illustrations to enhance understanding of key concepts, including pathophysiology and diagnostics. Included for the first time is an introduction to surface anatomy, while other updating reflects current scientific knowledge and developments, including coronavirus. Enhanced learning features and an extensive online resource help you grasp all the important areas.

Like millions of readers before you, you will treasure Ross & Wilson as a go-to resource that you will refer to time and again to support this critical aspect of your healthcare education.

Key Features:

- Clear and easy to read – suitable for students new to the area and anyone whose first language is not English
- Hundreds of stunning illustrations and images to make learning easy
- Helpful learning features such as Learning Outcomes boxes, colour coding and orientation icons to facilitate navigation
- Definitions of common prefixes, suffixes and roots, examples, glossary and an appendix of normal biological values
- Self-assessment activities in each chapter, including 'spot check' questions for each section and case studies with answers to develop understanding of key principles
- Accompanying website with animations, videos, audio-glossary and other self-assessment material

Evolve Study Resources

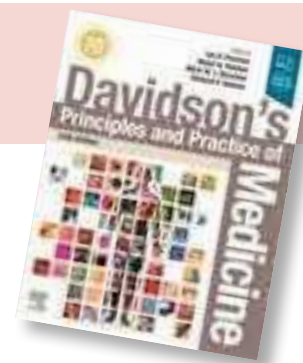

Online content offered with Ross & Wilson Anatomy and Physiology in Health and Illness 14th edition includes:

- New for this edition – a set of expert-narrated 3D videos summarizing key topics in the book, powered by Complete Anatomy: the world's most advanced 3D anatomy platform
- Over 120 animations clarifying underlying principles and make learning fun
- More than 1700 audio glossary entries
- Body Spectrum © online colouring and self-test software
- Self-assessment questions to help students test their knowledge

Davidson's Principles and Practice of Medicine

B1562 - £55.64

Pages:
1378

Well over two million medical students, doctors and other health professionals around the globe have owned a copy of Davidson's Principles and Practice of Medicine since it was first published over 70 years ago. Now in its 24th Edition, this thoroughly updated textbook describes the pathophysiology and clinical features of the most frequently encountered conditions in the major specialties of adult medicine, and explains how to recognise, investigate, diagnose and manage them. Taking its origins from Sir Stanley Davidson's much-admired lecture notes, Davidson's has endured because it keeps pace with how modern medicine is taught and provides a wealth of trusted information in an easy-to-read, concise and beautifully illustrated format.

Key Features:

- Part 1 'Fundamentals of Medicine' - provides an account of the principles of genetics, immunology, infectious diseases, population health, oncology and pain management, along with a discussion of the core principles behind clinical decision-making and good prescribing.
- Part 2 'Emergency and Critical Care Medicine' - covers medical emergencies in poisoning, envenomation and medicine in austere environments, as well as common presentations in acute medicine and the recognition and management of the critically ill.
- Part 3 'Clinical Medicine' - covers the major medical specialties, each thoroughly revised and brought fully up to date. A new section on COVID-19 has been added and the impact of this infection is described throughout the book.
- Clinical Examination overviews - extended and updated to summarise the main elements for each system.
- Presenting Problems sections - provide a clear pathway for the assessment of and approach to the most common complaints in each specialty.
- Practice Point summaries - detail the practical skills that medical students and junior doctors must acquire.
- Emergency boxes - emphasise the core knowledge needed to manage acutely ill patients.
- In Old Age, In Pregnancy and In Adolescence boxes - highlight differences in the practice of medicine in these patient groups, and illustrate the interfaces between medical, obstetric and paediatric services.
- The text is extensively illustrated - with over 1000 diagrams, clinical photographs, and radiology and pathology images.
- The global perspective is enhanced by an International Advisory Board of experts from 11 countries and by leading authors from around the world.
- The complete, downloadable eBook version is included with your (print copy) purchase – for easy access on your portable device, anytime, anywhere! Now enhanced with: NEW interactive self-assessment material – over 150 Questions and Answers test your understanding of chapter key points and aid efficient exam preparation

Kumar and Clark's Clinical Medicine

B1573 - £59.84

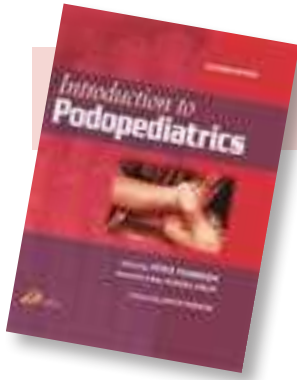

Pages:
1564

Now in its 10th edition, Kumar & Clark's Clinical Medicine is fully updated and revised under a new team of editors. Featuring new chapters covering: o Diagnosis: the art of being a doctor – helping readers to develop a confident clinical method in interactions with patients Elderly medicine, frailty and multimorbidity Public health Surgery Evidence-based medicine Sepsis and the treatment of bacterial infection o Haematological Oncology Venous thromboembolic disease Hypertension Men's health Enhanced clinical skills content has been added to most chapters - helping readers tailor history-taking and examination skills to specific specialty-based contexts. Bonus online content - including self-assessment, common clinical and international cases, cardiovascular and respiratory audio material, clinical examination videos and bite-sized topic pages covering major conditions. Heavily revised throughout with smaller chapters to ease navigation, added introductions and system overviews included for most chapters.

Key Features:

- Edited by Adam Feather, MBBS, FRCP, FAcadMEd; David Randall, MA, MRCP; and Mona Waterhouse, MA, MRCP
- Contributors comprise consultants at the top of their fields, paired with younger doctors closer to the exam experience, to ensure authority and relevance.
- Enhanced e-book accompanies the print book, for ease of transportation and use on the move.
- International Advisory Board, led by Professor Janaka de Silva and Professor Senaka Rajapakse, providing guidance for global coverage from across the world.
- Contributions to the e-book by members of the International Advisory Board to amplify areas of clinical importance in their parts of the world.

Introduction to Podopediatrics

B1590 - £62.99

Pages:
371

A concise but comprehensive introduction to the effective care of foot problems in children. Including coverage of the general, specialist and medical conditions which may influence the course of the podiatric treatment.

Written by a multidisciplinary, international team of contributors under the editorship of a UK practitioner and an American educator and practitioner - both podiatrists.

BMA Concise Guide to Medicines & Drugs

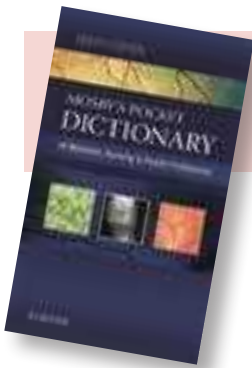

B1602 - £10.55

Pages:
480

The essential quick reference to more than 2,500 medicines and drugs.

Find out all you need to know about the prescription drugs and medicines currently on the market with this fully-updated guide to using medication safely and effectively.

Concise Guide to Medicine and Drugs is an easy-to-use edition which provides clear explanations on how drugs work and gives advice on the uses, actions, risks, and side effects associated with the most widely used prescription medicines and over-the-counter drugs. Updated information on travel vaccinations and childhood immunisation schedules help make this an indispensable handbook for every household.

Mosby's Pocket Dictionary of Medicine, Nursing and Health Professions

B1605 - £31.49

Pages:
1488

What does that term mean? How is it even pronounced? Make sense of the complex world of health care with *Mosby's Pocket Dictionary of Medicine, Nursing & Health Professions*, 8th Edition.

This comprehensive, portable dictionary offers a unique, strong focus on nursing and health science terminology. Featuring over 56,600 authoritative definitions of diseases, procedures, equipment, drugs, and more, it ensures you have the most reliable health science information right at your fingertips. Word roots and pronunciations help you learn and correctly use medical terminology, and alphabetized screened thumb tabs make finding definitions quick and easy.

Key Features:

- Emphasis on nursing and health science terminology supports health science students and practicing professionals
- Over 56,600 definitions provide you with necessary information
- Revised by an experienced educator, Marie O'Toole, and an expert team of health professionals, nurses, and doctors, so definitions are brief, pertinent, and – most important of all – accurate!
- Practical alphabetical organization without subentries makes it easier for you to find terms
- British spellings assist you in recognizing alternate spellings
- Pronunciations for key terms help you use terminology correctly in everyday practice
- A Spanish/English Appendix and commonly used abbreviations, printed on the front and back endsheets, make dictionary an indispensable reference
- Alphabetized screened thumb tabs save you time locating terms
- Included etymologies build professional vocabulary and understanding of medical terminology
- Small trim size makes dictionary easy to transport

Clinical Skills in Treating the Foot

B1620 - £58.79

Pages:
496

This edition of *Clinical Skills in Treating the Foot* has been revised and updated with the needs of a broad range of health professionals in mind. For anyone treating patients with foot disorders, *Clinical Skills in Treating the Foot* will provide invaluable support through three key areas:

Section 1 is concerned with the general principles of managing foot disorders and the context in which treatment of the foot takes place. Included are chapters on treatment planning, evidence based practice, governance and audit, clinical protocols, clinical emergencies and health promotion.

Section 2 examines the application of clinical therapeutics to foot disease and includes chapters on operative techniques, surgery and the foot, pharmacology, physical therapy, mechanical therapeutics, chairside devices, prescription devices and footwear therapy.

Section 3 considers the particular needs of special groups and includes chapters on the adult foot, the child's foot, sports injuries and management of tissue viability.

With its clarity of text and liberal use of case studies and illustrations, the latest edition of *Clinical Skills* will be required reading for practising and student podiatrists. It will also be a valuable reference and guide for all others involved in the provision of treatment of the foot. This book has been written as a companion volume to the editors' B2226 - *Assessment of the Lower Limb*.

Key Features:

- Written by an experienced team of clinicians who also understand the needs of students as well as practitioners
- Logical and clear structure makes it easy to use for both clinicians and students
- Each chapter is self-contained and can be used for independent reading topics
- Case histories and clinical comment sections illustrate important clinical points
- Key points and summaries provides assistance for learning and review
- Features approximately 400 illustrations

Clinical Biomechanics of the Lower Extremities

B1630 - £79.99

Pages:
528

NEW
LOWER
PRICE!

This book is a comprehensive text addressing the principles of anatomic and biomechanical development and the clinical application of these principles to disease/disorder management.

The emphasis of the book is on practical information applicable to the daily practice of lower extremity care.

Key Features:

- The physical examination and the assessment of disorders having a biomechanical basis
- Casting techniques
- Prescription writing
- Oorthotic trouble-shooting
- Splinting and shoe prescription for athletic activity

Transforming Practice through Clinical Education, Professional Supervision and Mentoring

B1811 - £39.89

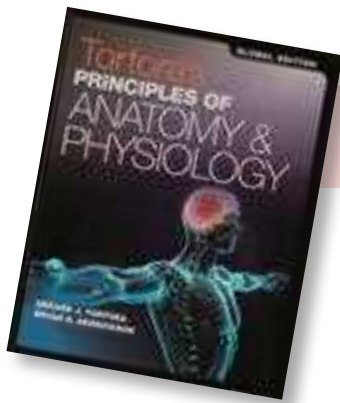

Pages:
369

This important resource investigates topics related to clinical education, professional supervision, and mentoring. Beyond student supervision, it discusses supervision of professionals in the work place and the emerging importance of professional mentoring for ongoing professional development. Its broad perspective is relevant to a wide range of health professions, including audiology, dietetics, nursing, occupational therapy, pharmacy, physiotherapy, podiatry, prosthetics and orthotics, radiography, and speech-language pathology. Complex theoretical material is presented in a straightforward, "person-centered" approach that makes information easily accessible and applicable to practice.

Key Features:

- Written by multidisciplinary experts with academic and research backgrounds who also possess extensive practical experience in a variety of professional health fields
- Reader-friendly, engaging material is grounded in current theory and evidence
- Three distinct but interrelated fields - clinical education, professional supervision, and mentoring - are addressed together in one book for the first time
- Supervision of professionals in their workplace is covered, as well as professional mentoring for ongoing professional development
- Presents complex theoretical material in an engaging, "person-centered" approach
- Acknowledges the importance of psychological well-being with chapters on the self in supervision and finding meaning and preventing burnout

Tortora Principles of Anatomy & Physiology

B2020 - £49.50

Pages:
1288

Designed for the 2-semester anatomy and physiology course, *Principles of Anatomy and Physiology* combines exceptional content and outstanding visuals for a rich and comprehensive classroom experience. Enhanced for a digital delivery, the 15th edition, gives students the ability to learn and explore anatomy and physiology both inside and outside of the classroom.

Key Features:

- Packaged as a set, comprising the textbook and a single-colour study guide
- The study guide is designed to reinforce the learning from the textbook and includes:
 - Chapter reviews
 - Features such as Clinical Connections, disorders and medical terminology
 - Self-quizz questions (with solutions)

Macleod's Clinical Examination

B2222 - £45.14

Pages:
464

Fifty years since it was first published and now fully revised, Macleod's remains the textbook of choice for medical students, junior doctors, nurses and allied health practitioners who understand that excellence in clinical examination is integral to good practice.

The fifteenth edition will teach you how to take a history and carry out proficient clinical examination, in order to elicit the key clinical symptoms and signs of disease. It covers general principles, relevant history, examination and investigations for all the major body systems – and how to effectively apply these skills to specific clinical situations and prepare for assessment.

Macleod's Clinical Examination is enhanced with 32 supplementary videos demonstrating key clinical examination routines described in the book, many new and revised for this edition in line with latest guidance and best practice.

Key Features:

- Primarily focused on the practical skills required by medical students and early career stage clinicians
- Explains the physical basis of clinical signs to aid understanding
- Introduces the formulation of a differential diagnosis
- Provides logical initial investigations for each body system
- Comes with access to the complete, fully searchable and downloadable eBook
- Updated text and images, to ensure the content is relevant to a diverse readership and patient population
- Latest clinical decision-making models to aid the learner's diagnostic reasoning
- 8 brand new videos produced especially for this edition covering:
 - Obstetric examination
 - Gynaecological examination
 - Assessment of fluid balance
 - Examination of the hand and wrist
 - Examination of the foot and ankle
 - Examination of the neck
 - Examination of the foot in diabetes and peripheral vascular disease
 - The timed up and go

New to this edition

- Enhanced sections on adapting skills to particular situations, including the challenges of remote consultation and infection control

Merriman's Assessment of the Lower Limb

B2226 - £51.00

Pages:
584

This is the benchmark textbook of lower limb examination and assessment.

The 3rd edition preserves the lucidity, logical approach and comprehensive coverage of its predecessors but adds many new exciting features, including an all-new design, new contributors, thorough updating of all chapters – many of which have been completely rewritten – and an entirely new chapter on functional assessment.

The DVD provides extensive videos of assessment techniques and illustrations: practitioners with patients and models show how to assess all parts of the lower limb, and evaluate various conditions.

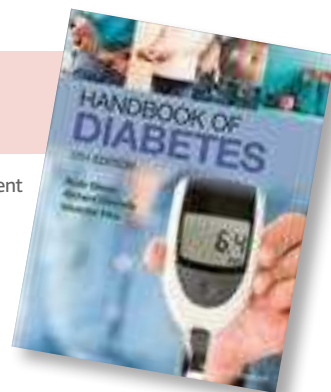

Key Features:

- Presentation of over 60 conditions that all foot clinicians are likely to encounter
- Cases conveniently organised into sections for ease of reference
- Text profusely illustrated (in black and white) with photographs, line drawings and radiographs
- Form and structure concise that makes it easy to use for both quick reference and self-assessment
- Written by a podiatrist and orthopaedic surgeon

Handbook of Diabetes

B2261 - £50.99

Pages:
320

The *Handbook of Diabetes* provides concise and efficient coverage of the diagnosis, epidemiology, and management of diabetes and its complications. Containing hundreds of attractive colour diagrams, illustrations, and clinical photographs, this popular quick-reference guide focuses on the management and measurement of diabetes mellitus with highly visual references.

Now in its fifth edition, this market-leading book aligns with the most recent guidelines from the American Diabetes Association (ADA), the European Association for the Study of Diabetes (EASD), Diabetes UK, and the National Institute for Health and Care Excellence (NICE), presenting authoritative clinical coverage of diabetes in an accessible format with rich pedagogical features.

Five new chapters provide detailed coverage of liver disease, diabetes education, bariatric surgery, diabetes and cancer, and the use of incretin-based therapies and SGLT2 Inhibitors in the management of Type II diabetes

Updated and expanded topics include the relation between hypoglycaemia and dementia, anxiety and depression, the NICE Quality and Outcomes Framework (QOF), and the impacts of diabetes to self-care, mental health, and decision-making

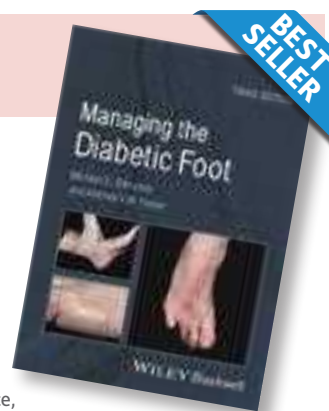

Provides a wealth of pedagogical features such as vignettes and case histories, important learning points, summaries of key clinical trials, and links to further readings

Handbook of Diabetes, remains the essential practical companion for all health professionals involved in managing patients with diabetes, and an up-to-date reference for diabetes and endocrinology researchers, scientists, and academics.

Managing the Diabetic Foot

B2262 - £35.99

Pages:
240

The 3rd edition of *Managing the Diabetic Foot* once again provides a practical, handy and accessible pocket guide to the clinical management of patients with severe feet problems associated with diabetes, such as ulcers, infections and necrosis. By focusing on the need for a speedy response to the clinical signs, it will enable doctors to make rapid, effective management decisions in order to help prevent deterioration and avoid the need for eventual foot amputation.

Each chapter focuses specifically on the different stages of foot disease and the clinical management required at that particular stage, ie, the normal foot; high-risk foot, ulcerated foot, infected foot, necrotic foot and unsalvageable foot.

Full colour throughout, it will feature over 150 clinical photos, numerous hints and tips to aid rapid-reference, as well as the latest national and international guidelines on diabetic foot management.

Managing the Diabetic Foot 3E, is the ideal go-to clinical tool for all diabetes professionals, specialist diabetes nurses and podiatrists managing patients with diabetic foot problems.

50+ Foot Challenges

B2304 - £32.54

Pages:
384

The 2nd edition retains all the benefits of the previous edition but adds more cases, more illustrations, new sections and invaluable appendices.

The same illustrated case-history format as in the first edition presents readers with the clinical problems of each disorder. In each case, a problem-solving approach is encouraged through a question-and-answer format. This guides the reader to the appropriate diagnosis and treatment plan.

Clinical tips for improving practice are included and each study concludes with a short list of key points and references to further reading. All those involved in the care and management of patients with foot conditions will find this book an invaluable aide-memoir and guide to their daily practice.

Key Features:

- Presentation of over 60 conditions that all foot clinicians are likely to encounter
- Cases conveniently organised into sections for ease of reference
- Text profusely illustrated (in black and white) with photographs, line drawings and radiographs
- Form and structure concise that makes it easy to use for both quick reference and self-assessment
- Written by a podiatrist and orthopaedic surgeon

Foot and Ankle Injection Techniques, A Practical Guide

B2312 - £47.99

Pages:
208

Foot and Ankle Injection Techniques provides the student and practising podiatrist with all they need to understand when, how and what to inject.

To support the clinician and student, the text covers:

- Changes in legislation
- The full range of injectable drugs available to the practitioner
- Essential information on nerve physiology, drug action, equipment, patient selection, injection techniques and many other topics
- A step-by-step guide to injection techniques
- Useful background information in introductory chapters
- Written by two highly respected consultant podiatric surgeons

Key Features:

- Online resources including video clips to supplement the text
- Abundant photographs and clear line illustrations of the techniques and underlying anatomy

Medical Pharmacology and Therapeutics

B2314 - £51.99

Pages:
744

Medical Pharmacology & Therapeutics provides all the information medical and healthcare students need throughout their degree programme and beyond, including for professional qualifications such as the PSA.

This all-round textbook covers basic pharmacology through to drug prescribing in clinical contexts, covering the pathogenic mechanisms of disease; drug actions, side effects, and the therapeutic principles of drug use. It takes a helpful systems-based approach that orders information according to body systems and disease areas, rather than by drug class.

Now in its 6th edition, the book has been fully updated to include latest scientific understanding of drug action and administration and current best practice in prescribing medications, informed by the latest national guidelines.

Key features:

- A clinical focus throughout – suitable for medical, nursing and other healthcare students throughout their training
- Thorough update of clinically-relevant medicines to ensure best practice
- Information aligned with the British National Formulary (BNF), NICE guidelines and relevant professional benchmarks
- Comprehensive drug compendia allow all drugs to be identified and placed within their respective classes
- Extensive self-assessment questions to support learning and revision
- Expanded discussion of the pathophysiology and management of shock
- Revised discussion of the management of chronic pain
- Consideration of treatment of Covid-19

Medical Pharmacology at a Glance

B2316 - £31.99

Pages:
120

The internationally best-selling *Medical Pharmacology at a Glance* is the ideal companion for all medical and healthcare students, providing a visual overview of pharmacology, and describing the basic principles of drug action, interaction, absorption, and excretion.

Clear and accessible chapters organised around common diseases and conditions facilitate efficient clinical learning, and include references to drug classes and side effects, disease pathophysiology, prescribing guidelines, and more.

Now in its 9th edition, this leading guide has been thoroughly updated to reflect current guidelines and drug information.

This edition features new and revised illustrations, additional pedagogical tools, and enhanced online content.

Widely recognised as both the best introduction to medical pharmacology and the perfect revision tool for USMLE and pharmacology exams, this invaluable guide.

Key Features

- Covers a wide range of drugs used to treat conditions such as hypertension, anaemias, cancer, and affective disorders
- Explains drug mechanisms and the principles of drug action
- Discusses practical topics including drug misuse, drug indications, and side effects
- Includes a companion website featuring online cases, flashcards, and a list of core drugs

Dermatology at a Glance

B2318 - £29.99

Pages:
192

The field of Dermatology is expanding at a rapid pace — new research findings and advanced treatment technologies have amplified the need for concise and up-to-date information on this dynamic area of medicine. *Dermatology at a Glance* provides medical students and trainees with a clear introduction to dermatological practice. This valuable resource covers essential components of dermatology, from patient consultation and basic procedures to advanced treatments of skin disorders. Illustrated with over 300 high-quality slides and full-colour photographs, this book is an ideal reference for those seeking to interview and examine patients, identify and diagnose skin diseases, and develop treatment plans.

Now in its second edition, *Dermatology at a Glance* offers revised coverage of the epidemiology, pathogenesis, and presentations of various skin disorders, and examines central aspects of the British Association of Dermatologists core curriculum. New chapters on topics such as dermoscopy, diagnostic methods for lesions and rashes, cosmetic dermatology, and drug reactions reflect current research and practices.

Perfect for revision and quick consultation with its highly visual approach

Eight brand new chapters, including hidradenitis suppurativa, itch, and systemic and topical drugs. Accompanied by a companion site featuring self-assessment resources and an image bank *Dermatology at a Glance* is an indispensable resource for medical students, dermatology specialty and primary care trainees.

Dermatology Essentials

B2319 - £53.99

Pages:
1104

Edited by world authorities Drs. Jean L. Bolognia, Julie V. Schaffer, Karynne O. Duncan, and Christine J. Ko, *Dermatology Essentials, 2nd Edition*, provides the fast answers you need on every important aspect of dermatology and guidance on their application in your day-to-day practice. Derived from the renowned authoritative reference work *Dermatology, 4th Edition*, this on-the-go reference distills the essential information needed to quickly diagnose and manage a wide range of dermatologic disorders—without the need for any additional resources. It's an ideal reference for family medicine and internal medicine physicians, nurse practitioners, physician assistants, and other health care professionals who diagnose, treat, and refer patients with dermatological conditions.

Key Features:

- Features a highly user-friendly, “easy-in-easy-out” format and a wealth of tables and schematics for instant visual comprehension
- Helps you visualize more of the conditions you see in practice with over 1,800 typical clinical images, illustrations, and line drawings
- Includes numerous practical tables, intuitive artworks, and logical algorithms to help you avoid diagnostic pitfalls
- Expedites decision making with easily recognizable Ddx and Rx sections that provide rapid, direct reference to current guidance and treatment recommendations. Downloadable worksheets are also available
- Features unique introductory chapters that cover the basic principles of dermatology, bedside diagnostics, and clinical approach to a fever and rash—extremely helpful information for the beginner
- Enhanced eBook version included with purchase. Your enhanced eBook allows you to access all of the text, figures, and references from the book on a variety of devices

Medical Microbiology and Infection

B2322 - £26.00

Pages:
336

Medical Microbiology and Infection Lecture Notes is ideal for medical students, junior doctors, pharmacy students, junior pharmacists, nurses, and those training in the allied health professions. It presents a thorough introduction and overview of this core subject area, and has been fully revised and updated to include:

Key Features

- Chapters written by leading experts reflecting current research and teaching practice
- New chapters covering Diagnosis of Infections and Epidemiology and Prevention & Management of Infections
- Integrated full-colour illustrations and clinical images
- A self-assessment section to test understanding

Whether you need to develop your knowledge for clinical practice, or refresh that knowledge in the run up to examinations, *Medical Microbiology and Infection Lecture Notes* will help foster a systematic approach to the clinical situation for all medical students and hospital doctors.

Charts

All charts are printed on high quality 170 gm satin paper & gloss encapsulated (**laminated**) to a thickness of 250 micron for durability and hygiene

Foot and Ankle Anatomy

M6027 - £10.99

The Anatomy of the Ankle Joint and Foot chart shows the major anatomical structures of the joint including bones, ligaments, tendons and muscles. The ankle joint is a synovial hinge joint and the foot is made up of a complex series of joints which allow a combination of movements including dorsi flexion plantar flexion inversion and eversion. These movements are illustrated on the chart together with the muscles that are responsible for each action. Anterior medial lateral and posterior views are shown on the chart as well as information about Activities of Daily Living which involves the ankle and foot. This colourful chart was originally designed prior to 'the digital age' with all images being hand drawn and painted by an acclaimed anatomical illustrator.

Printed on quality 170 gram satin paper & 250 micron encapsulated (laminated) for durability and hygiene. Designed as a useful reference resource for medical practices, physiotherapists, occupational therapists, hospitals and medical institutions, it is an ideal learning tool for anatomy students and a practical visual aid for explaining anatomical problems to patients.

Size: 60cm x 42cm (A2)

Foot and Ankle

M6016 - £39.81

Illustrates foot and ankle anatomy including bones, muscles and tendons. Shows medial, frontal, lateral, and plantar views as well as a cross section. Illustrates supination and pronation, hammertoe, bunion, sprains, fractures and fracture fixation.

Size: 67cm x 50cm (A2)

Lower Limb Nerves Anterior

M6040 - £9.99

This Chart provides clear information about the anatomy and major nerves of the Lower Limb on the anterior aspect showing which muscles each major nerve innervates. The Lumbar Plexus is shown and identifies the nerves that arise from the lumbar vertebrae L1 to L5. Major nerves such as; the Femoral nerve, Common Peroneal, Deep Peroneal nerves, Obturator nerve and others have information about where the nerve arises and which muscle(s) it supplies.

Illustrated with great precision, this chart was originally designed prior to 'the digital age', all images being hand drawn and painted by an acclaimed anatomical illustrator.

Printed on quality 170 gram satin paper & 250 micron encapsulated (laminated) for durability and hygiene. Designed as a useful aid and reference resource for medical practices, physiotherapists and specialist clinics for educational purposes and to identify and demonstrate nerve damage to patients.

Size: 60cm x 42cm (A2)

Lower Limb Nerves Posterior

M6041 - £9.99

This Chart provides clear information about the anatomy and major nerves of the Lower Limb on the posterior aspect showing which muscles each major nerve innervates. The Lumbar Plexus is shown and identifies the nerves that arise from the lumbar vertebrae L1 to L5. Major nerves such as; the Femoral nerve, Common Peroneal, Deep Peroneal nerves, Obturator nerve and others have information about where the nerve arises and which muscle(s) it supplies.

Illustrated with great precision, this chart was originally designed prior to 'the digital age', all images being hand drawn and painted by an acclaimed anatomical illustrator.

Printed on quality 170 gram satin paper & 250 micron encapsulated (laminated) for durability and hygiene.

Designed as a useful aid and reference resource for medical practices, physiotherapists and specialist clinics for educational purposes and to identify and demonstrate nerve damage to patients.

Size: 60cm x 42cm (A2)

Skeletal Muscles Anterior

M6010 - £12.99

This chart clearly identifies the Major Muscles with simple explanations, defining muscle action and information linking to sporting activity. The deep muscles are illustrated in dark red and the superficial muscles in bright red making the chart colourful and easy to use.

Illustrated with great precision, these charts were designed prior to 'the digital age', all images being originally hand drawn and painted by an acclaimed anatomical illustrator. The Chartex Anatomy Charts not only provide information about how muscles work but also highlight the fact that muscles work in synchronised patterns.

Printed on quality 170 gram satin paper, available as A1 or A2 size, 250 micron encapsulated (laminated) for durability and hygiene. One of a set of 4 muscle charts designed as a useful aid and reference resource for; medical clinics, doctors surgeries, schools, universities, physiotherapy departments and health and fitness clubs.

Size: 85cm x 60cm (A1)

Skeletal Muscles Posterior

M6011 - £12.99

This chart clearly identifies the Major Muscles with simple explanations, defining muscle action and information linking to sporting activity. The deep muscles are illustrated in dark red and the superficial muscles in bright red making the chart colourful and easy to use.

Illustrated with great precision, these charts were designed prior to 'the digital age', all images being originally hand drawn and painted by an acclaimed anatomical illustrator. The Chartex Anatomy Charts not only provide information about how muscles work but also highlight the fact that muscles work in synchronised patterns.

Printed on quality 170 gram satin paper, available as A1 size, 250 micron encapsulated (laminated) for durability and hygiene. One of a set of 4 muscle charts designed as a useful aid and reference resource for; medical clinics, doctors surgeries, schools, universities, physiotherapy departments and health and fitness clubs.

Size: 85cm x 60cm (A1)

Muscle Attachment Anterior

M6012 - £12.99

This chart clearly identifies the Skeletal System and how the Major Muscles attach to the bone structure. Origins (Red) and Insertions (Blue) are shown with their Attachments described. This colour system explains Distal and Proximal Attachments for each muscle making it easier to cross reference with the muscles highlighted on the bone structure. Identifying how muscles attach onto the bones helps to explain how a muscle or group of muscles work to produce body movement. This unique feature makes the chart different to other anatomy charts, the additional information benefiting students and practitioners involved in understanding or teaching anatomy.

Illustrated with great precision, these charts were designed prior to 'the digital age', all images being originally hand drawn and painted by an acclaimed anatomical illustrator. Printed on quality 170 gram satin paper & 250 micron encapsulated (laminated) for durability and hygiene One of a set of 4 muscle charts designed as a useful aid and reference resource for; medical clinics, doctors surgeries, schools, universities, physiotherapy departments and health and fitness clubs.

Size: 85cm x 60cm (A1)

The Anatomy Of The Circulatory System

M6044 - £12.99

The Cardiovascular System Chart illustrates and identifies Major Arteries and Major Veins of the Human Body. Describing function and connections of Arteries, Veins and Organs of the Circulatory System. Text boxes and diagrams provide information on: Major Arteries, Major Veins, Heart, Lungs and Respiration, Hepatic Portal System, Capillaries and Blood.

Colourful Hand Drawn anatomical illustrations. The Cardiovascular System Chart is designed to be informative and functional providing a useful medical Training Aid and Reference Resource for Hospitals, Medical Students, Doctors Surgeries, Physiotherapists and Health Clinics.

Size: 85cm x 60cm (A1)

Charts

All charts are printed on high quality 170 gm satin paper & gloss encapsulated (**laminated**) to a thickness of 250 micron for durability and hygiene

Muscle Attachment Posterior

M6013 - £12.99

This chart clearly identifies the Skeletal System and how the Major Muscles attach to the bone structure. Origins (Red) and Insertions (Blue) are shown with their Attachments described. This colour system explains Distal and Proximal Attachments for each muscle making it easier to cross reference with the muscles highlighted on the bone structure. Identifying how muscles attach onto the bones helps to explain how a muscle or group of muscles work to produce body movement. This unique feature makes the chart different to other anatomy charts, the additional information benefiting students and practitioners involved in understanding or teaching anatomy.

One of a set of 4 muscle charts designed as a useful aid and reference resource for; medical clinics, doctors surgeries, schools, universities, physiotherapy departments and health and fitness clubs.

Size: 85cm x 60cm (A1)

Cutaneous Nerves Anterior

M6042 - £9.99

This chart illustrates the origin of cutaneous nerves on the Anterior Aspect together with a description of dermatome distribution. On the right side of the body, the dermatome distribution is shown in different colours and each section is numbered to signify which area of skin is being supplied by the dorsal (sensory) root of a spinal nerve. There is a considerable degree of overlap when assessing which nerve root may be damaged. The left side of the body shows the anterior cutaneous nerves duly named as well as information about where they arise and which area of the skin they supply. Similar descriptive information is also written on the dermatome supply.

Illustrated with great precision, these charts were originally designed prior to 'the digital age', all images being hand drawn and painted by an acclaimed anatomical illustrator. Printed on quality 170 gram satin paper & 250 micron encapsulated (laminated) for durability and hygiene. Designed as a useful aid and reference resource for medical practices, physiotherapists and specialist clinics for educational purposes and to identify and demonstrate nerve damage to patients.

Size: 60cm x 42cm (A2)

Cutaneous Nerves Posterior

M6043 - £9.99

This chart illustrates the origin of cutaneous nerves on the Posterior Aspect together with a description of dermatome distribution. On the right side of the body, the dermatome distribution is shown in different colours and each section is numbered to signify which area of skin is being supplied by the dorsal (sensory) root of a spinal nerve. There is a considerable degree of overlap when assessing which nerve root may be damaged. Gloves

Size guide for gloves available from the HSE site at www.hse.gov.uk/skin/employ/glovesizes.htm

Nitrile Gloves

- | | |
|-----------------------------------|-----------------------------------|
| 100 Gloves per box - £4.55 | 200 Gloves per box - £8.05 |
| M4550 Extra Small | M4555 Extra Small |
| M4551 Small | M4556 Small |
| M4552 Medium | M4557 Medium |
| M4553 Large | M4558 Large |
| M4554 Extra Large | M4559 Extra Large |

Now available in boxes of 100 or 200, providing excellent value and our best value nitrile gloves. Nitrile is rapidly becoming the material of choice for many FHPs and Podiatrists as it has similar properties to latex, but benefits from being free of any natural rubber proteins. A medical grade, super lightweight glove giving you a high degree of comfort, great sensitivity and toughness.

- High stretch and elasticity – very high degree of comfort and fit
- Maximum biological resistance – for protection
- High durability – tear and puncture resistance
- Fingertip textured – for added finger grip with smoother palms for patient comfort
- Excellent barrier protection – effective against all biological organisms
- Latex free – free from natural rubber latex proteins
- Super lightweight, thin wall construction – very high sensitivity
- Easy donning – inside of glove specially treated for ease of donning
- Powder free – for hygiene and convenience
- Choose 100 or 200 gloves per box
- Available in 5 sizes

Vinyl Gloves

- | | |
|-----------------------------------|--------------------------|
| 100 Gloves per box - £3.55 | |
| M4571 Small | M4573 Large |
| M4572 Medium | M4574 Extra Large |

Vinyl is a synthetic polymer, more commonly known as polyvinyl chloride (PVC). Vinyl gloves are a low cost option for minimal risk tasks, as they are of lower performance than nitrile and latex gloves.

May be used for medical examination purposes, as well as general purpose tasks.

- Smooth finish - silky finish either wet or dry, ideal for washing patients and fragile skin
- Regulatory compliance - medical grade and minimal risk PPE, for low-risk tasks
- Cost effective - low cost, suitable for general purpose and patient care tasks
- Available in 5 sizes
- Low elasticity - looser fit, but strong enough to prevent ripping on donning
- Latex free - to prevent Type I (natural rubber latex) allergies
- Barrier protection - basic protection against biological organisms
- Powder free
- 100 Gloves per box

Latex Gloves

- | | |
|-----------------------------------|--------------------------|
| 100 Gloves per box - £5.55 | |
| M4560 Extra Small | M4563 Large |
| M4561 Small | M4564 Extra Large |
| M4562 Medium | |

A regular gauge high quality latex glove, for increased sensitivity of touch and comfort.

Stringently tested and approved for medical examinations, this versatile glove offers a lower cost latex glove for a wide range of clinical and general purpose tasks. A high quality latex glove that enhances dexterity and sensitivity when in use.

- Regular construction - provides the ultimate in sensitivity
- Ultimate stretch - for the ultimate in comfort and fit
- Medium durability - for tear and puncture resistance
- Maximum biological resistance - for best protection
- High grip - naturally grippy material
- Available in 5 sizes
- Easy donning - for speed and convenience
- Advanced manufacturing - minimises free natural rubber latex proteins
- Powder free - convenience & reduced natural rubber latex allergy risk
- Colour – cream
- 100 gloves per box

- Easy to breathe and talk through
- Not washable

Cambridge Mask™ Pro

M5044 - £19.00

Churchill (Black)

Admiral (Navy)

Dorian (Grey)

- Unique triple filter technology
- Adjustable ear loops
- Antibacterial and virus protection

Cambridge Mask™ masks are N99 tested as opposed to the next level down, N95 and filter out dust, pollution particles such as PM10, PM2.5 and PM0.3 as well as bacteria and viruses using a unique triple layer filtration system. The first layer catches larger pollution particles such as dust and PM10, followed by the Three-Ply Micro Particulate Filter which stops nearly 100% of smaller particulate matter such as PM2.5 and PM0.3. The last layer has been developed by UK's Ministry of Defence and filters out viruses, bacteria and gas pollution such as Volatile Organic Compounds (VOCs), Ozone, Benzathine and Formaldehyde.

To complement the powerful PRO masks, the BASIC range was created to allow even more people gain access to clean air. New Lab tested filtration technology filters over 95% of pollution, gases, and bacteria and viruses up to 300 hours of use (pro). Trusted by people at risk of respiratory diseases, living in or travelling to areas with high air pollution levels. Protection against odours, all PM; PM2.5, PM0.3, pollen, smoke and pathogens such as viruses and bacteria.

Available in Grey, Navy or Black

 D5625 - £45.50 Clinisept+ Antimicrobial Prep & Procedure (5l)

NEW
LOWER
PRICE!

BEST
SELLER

Clinisept+ is a fast-acting cleanser and antimicrobial solution that can be used for both pre-procedure and after procedure skin cleaning. Clinisept+ provides highly effective microbial control but because of its gentle oxidising method of action doesn't itself inhibit skin recovery: it causes no stinging, sensitising, or irritation and neither does it dry the skin. Clinisept+ is suitable for use on normal and sensitive skin.

Clinisept is suitable for use before, during and following every podiatry procedure to keep skin clean and provide optimum conditions for skin recovery.

Clinisept+ products are effective in seconds and deliver more effective protection against bacteria than traditional skin cleansing chemistries. But they are also more 'skin compatible' than traditional skin cleansing chemistries: Clinisept+ has a skin neutral pH, contains no alcohol, is non-irritant to skin and eyes and does not cause respiratory irritation.

Both products are produced in an ISO13485 Medical Device facility and have been subject to extensive efficacy and dermatological testing.

Laufwunder Nail and Skin Softener (Salu)

P4594 - £13.33 Small 50ml
 P4595 - £51.29 Large 250ml

BEST SELLER

A gentle product for softening cuticles, skin around the nail and the nail itself. Ideal as a pre-treatment for softening tissue before cutting nails. Alternative to P4591 - Hydrogen Peroxide Solution 200ml

Gehwol Callus Softener with Diffuser

P4597 - £15.04

A solution for softening hard skin, corns and callouses before they are removed by the practitioner using instruments.

Ingredients: Buffered alkaline substances.

Application: To soften hard skin, calluses, corns and hardened nail folds, apply GEHWOL Callus Softener generously with a swab or something similar and allow the product to take effect for a few minutes (depending on the thickness of the skin). You can then begin to remove the hard skin using an appropriate foot care tool.

- Paraben-free
- Vegan
- 500ml bottle

- Suitable for frequent use

Surface Disinfectants

Clinell Universal Wipes

D5586 - £2.39 Pack of 40
D5587-100 - £6.05 Pack of 100
D5585 - £5.79 Tub -100 wipes
D5589 - £3.99 Tub refill pack -100 wipes
D5587-200 - £8.29 Pack of 200

Clinell Universal Wipes provide a range of products for surface disinfection and cleaning of non-invasive medical devices. Containing a unique, patented antimicrobial formula they can be used as a detergent and disinfectant wipe - replacing the need for multiple wipes and surface cleaners. Proven to kill at least 99.999% of germs - Clinell Universal Wipes are one of the most effective antimicrobial products on the market.

This revolutionary formula contains a mix of different biocides. Each biocide has a different mechanism of action, reducing the risk of germs developing resistance. According to European standard tests: EN1275, EN1276, EN12054, EN14245, EN14561, EN14562 & EN14563

Sanisafe 70% IPA Disinfectant Wipes

D5584 - £5.55 200 wipes

**BEST
SELLER**

- Quality precision, ensuring the cap holds securely in place during the treatment
- Easy removal
- Callus removal time is significantly reduced and gentler
- Non-stick surface - eradicating skin residues to the cap surface, reducing the tireless replacement of caps
- Soft touch - The Abrasive caps need only the gentlest pressure, reducing stress to the skin and discomfort to patients

Diagnosics

Monofilament (Retractable / 10g)

T4562 - £13.23

The Monofilament is used for testing peripheral neuropathy in the feet of diabetic patients. It does this by applying a specific force to a point on the skin to assess the sensitivity of the skin at that point. The Monofilament material has been carefully selected for its consistent mechanical properties over a range of environmental conditions. Unlike nylon filaments it will not absorb moisture during cleaning or from the atmosphere.

Size: 13cm

Miscellaneous

Stainless Steel Instrument Tray

T4635 - £15.53

High quality instrument tray manufactured from durable and easy-to-clean stainless steel.

Size: 20cm x 15cm x 1.8cm

Body Block

E4000 - £36.99

Bodyblock fills the gap in the market for a hygienic multidisciplinary, multipurpose support block. Its versatility is on account of different heights on each of its 4 sides creating different elevations. Simply flip it for a different height.

It can be used to support the head, legs, heels or arms and can also be used as knee spacer. It has applications within the health sector and has the advantage of making the practitioner's task easier whilst keeping the client or patient comfortable and in an optimum position. Bodyblock is made of polyurethane and is CE marked. The most practical way a bodyblock can be cleaned is with surface medical disinfectant sprays but it can also be autoclaved or put in the dishwasher. It's so light it floats like a cork, weighing only 300g, yet robust enough to elevate the heaviest limbs.

Flexible Foot Tray

E4963 - £30.00

A hygienic solution for collecting debris. This easy to use tray is made from silicone, which makes them flexible, roll-able and unbreakable. The material always feels warm which makes it comfortable for your patients. The trays are resistant to all aggressive liquids such as acetone and alcohol. These fluids do not affect the colour of the tray. The flexible tray is easy to maintain and can be cleaned with mild soap.

Size: 50cm width, 33cm length.

Available in Light Pink, Hot Pink, Purple, Light Blue, Denim Blue, White, Red, Green and Grey. Please state colour when ordering.

Rigid Plastic Foot Tray

E4960 - £38.15 Foot tray (white)

Assists in the collection of debris.

Heel Block

E4962 - £12.00

Heel block designed to compliment the foot debris tray. Elevates the heel from the tray allowing better access to the heel area of the foot. Perfect in conjunction with the Rigid Foot Trays (E4960).

To prolong the life of your cutters and nippers we provide care instructions with all orders. This information can also be found on our website.

	Ideal for large, diffuse areas of thick callus.	For broader callus areas that require a fine tip for accurate work.	Smaller blade head for fine callus work on small areas of callus.	Curved blade head for combination of callus and corn treatment.	Ideal for small, diffuse callus treatment and corn enucleation.	For very large areas of callus.

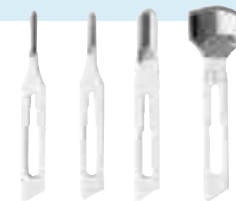

Gouge Blades

T4206 - £7.86 Size 1 (pack of 10) **T4207** - £7.86 Size 2 (pack of 10)
T4213 - £7.86 Size 5 (pack of 10) **T4208** - £13.50 Size 12 (pack of 10)

Fantastic for sensitive work on problem areas. They are held like a pencil which gives the user precision needed to treat the patient effectively. The precise edge on the blade makes it possible to perform a deep, clean cut. Gouge blades are easily changed and individually packed in sterile packaging. Blades 1 and 2 are for the removal of corns, hard skin in the nail fold and ingrown toenails as well as soft corns between the toes. Blade 12 is for the removal of hard skin and treating cracked heels.

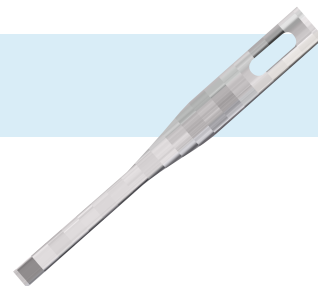

Please note that Scalpel Handle No.3 (T4516) fits these blades and available to order separately (page 52).

SM61 Fine Blades (Beaver Blades)

T4519 - £29.00 Pack of 25

Traditionally used in nail surgery, these blade types can be used in more moderate management of ingrowing toenails by a trained professional. Sometimes referred to as a 'beaver' blade this is primarily a tool used in nail surgery, but specialist use for conservative management of onychocryptosis is also possible with this blade.

SM67 Fine Blades

T4522 - £29.00 Pack of 25

The SM67 can be used in a number of specialist disciplines including Plastic & Reconstructive Surgery, Ophthalmology, Cardio-Vascular Surgery, Podiatry and Dental Periodontics. Fitment Fine.
 Fits Handles SF1, SF2, SF3, SF4, SF13 and SF23.

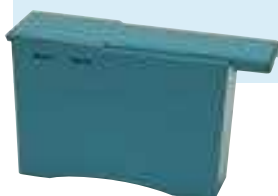

Fine Handles for SM61 & SM67 Blades

T4518 - £17.90 - SF1 Long Handle **T4511** - £16.99 - SF3 Short Handle

SM61 fine blade holder. Traditionally used in nail surgery, these blade types can be used in more moderate management of ingrowing toenails by a trained professional. Swann-Morton stainless steel fine handle. Autoclavable.

UPDATED
RANGE

Blade Disposal Unit

Pack sizes: 800g tub + 20g hardener, 170g tub + 5g hardener.

BEST
SELLER

PediRoller

M2001 - £4.55

Carnation PediRoller offers immediate relief from common foot pain in the heel and arch. Excessive use of the plantar fascia, a tough band of tissue that supports the arch stretching like a bow string from the heel to the ball of the foot, causes it to become inflamed and very painful. The ridged design massages tired feet, reducing tension and stimulating circulation. It can be used as cold therapy by chilling or freezing before use which will help reduce inflammation and comfort pain. PediRoller when used daily, following activity, offers continuing relief and ongoing prevention of heel and arch pain.

Instruction sheet included for the treatment of heel pain.

Hapla Gel Orthotic Insole

D5948 - £12.29 Heel Cup

D5949 - £18.47 Full Insole

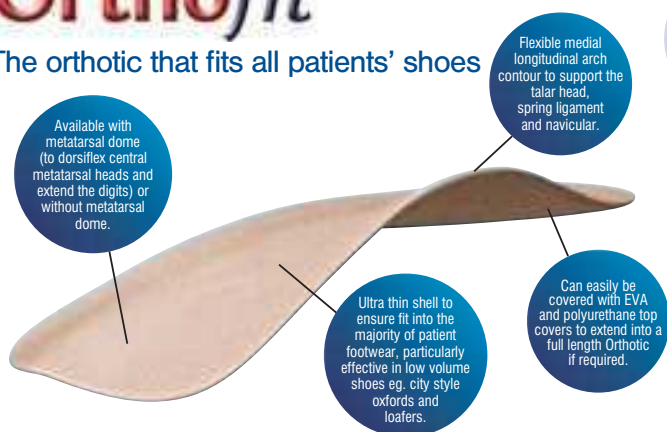

Hapla Gel Orthotic Full Insoles are 100% pure silicone, provide excellent levels of comfort and conformability and are washable. The shock absorbing properties make it ideal when underfoot redistribution of pressure is needed.

- Gel is strong and resilient and will not bottom out under repeated foot strike
- Dual Density System – Blue gel areas are created from softer lower density gel offering extra comfort for those areas that receive heavier pressure loads
- Absorbs pressure reduces stress at heel strike
- For the treatment of plantar fasciitis, heel spurs and general heel pain

3 sizes available: S (Shoe size 2-5), M (Shoe Size 6-8), L (9-11) Please state size when ordering.

The orthotic that fits all patients' shoes

Orthofit is a revolutionary product that has been developed by a team of footcare professionals in both Europe and America. This partnership of podiatrists, orthotists and material engineers has produced an orthotic that will fit easily into any shoe.

Elegantly Thin

Orthofit has been designed to offer the correct profile in an elegantly thin, yet exceptionally strong material. Its design means that the bulk so often present to achieve this profile in other orthotics, is not needed on Orthofit – meaning it will fit all patients' shoes.

Exceptionally Strong

The ultra-strong, technologically-advanced high-performance semi-crystalline thermoplastic polymer material comes with a lifetime guarantee.

Easy to Fit

Can be used straight out of the pack or can be easily heat moulded, using the Orthofit oven, to suit a patient's individual requirements.

Easy to Customise

Orthofit's unique slim profile and exceptional strength means a custom orthotic can be created with or without a positive cast. This unique combination allows practitioners to customise or manufacture a prefab into a functional device, cost-effectively, in just a few minutes without undue consideration of the patient's weight or activity.

Haplabase Orthotic Insoles (NS) - £9.30

G7000

Made from a moulded EVA foam and designed to support to the arch, heel and ankle (sub-talar and mid-tarsal joints). They have a 15mm deep heel cup and contoured arch support for improved plantar foot contact and feature a lightweight anatomical design which fit into most shoes and can be trimmed if needed. The strong, durable low slip top cover offers reliability and long lasting use. Conditions which may benefit from using the insoles include:

- Weak Arches
- Achilles Tendonitis
- Metatarsal Pain
- Supination
- Over-Pronation
- Hip/Back Pain
- Plantar Fasciitis

Sizes: 5 – 14. Please state size required when ordering.

PLEASE NOTE: Please seek advice from a qualified Podiatrist or foot health practitioner prior to purchase of this product.

D30 Support Orthotic (NS) - £29.50

G8000

A great all round device made of 100% D30 with a textured fabric cover, offering amazing levels of impact protection whilst providing good mid-foot support. An extra deep heel cup and high medial and lateral flanges give a good forward velocity control, which will off load shin pain. The medial flange is designed to sit in trainers and walking shoest. Stability of the device is supported by a unique mid-foot design, and the 1st met head aperture ensures good 1st ray function.

Sizes: 5 – 14. Please state size required when ordering.

D30 Comfort Orthotic - £24.00

G8001

A simple and easy to fit insole made D30. This product provides a great in shoe feel with a good arch profile. The device itself is made up of two materials, a soft heel pad and a slightly harder surrounding shell covered in a textured fabric and will fit into any shoe. A deeper heel cup and high flanging will offer a moderate level of control. The aim of this device is to provide general comfort, specifically in the heel.

Sizes: 5 – 14. Please state size required when ordering.

Dressings

Acrytensil

P4855 - £6.20 Standard - Skin dressing - 10ml

P4851 - £6.20 Extra Hard - Nail dressing - 10ml

P4862 - £4.71 Solvent - 10ml

Acrytensil is a quick drying, porous plastic dressing for nails and skin.

Uses include:

- A dressing for fissures and breaks in the skin.
- As a securing agent for stainless steel braces.
- As an aid in the treatment of onychomycosis.
- As a light application to protect unbroken chilblains.

Kaltostat

D5626 - £21.55 5cm x 5cm Box of 10

Calcium sodium alginate wound dressing.
Absorbent and haemostatic.

Inadine Dressing

D2037 - £17.99 Box of 25

Inadine Povidone Iodine Non-Adherent Dressing

- Knitted viscose fabric impregnated with a polyethylene glycol (PEG) base
- Contains 10 povidone-iodine, equivalent to 1.0 available iodine
- Low adherent wound contact material
- Orange in colour
- 5 x 5cm

Bactigras Dressings

P4524 - £30.91 5cm x 5cm Box of 50

Bactigras is an antiseptic, soft paraffin dressing which soothes and protects the wound whilst helping to reduce wound infection and inflammation. It has low adherence and allows the wound to drain freely into an absorbent secondary dressing. Bactigras is suitable for covering wounds such as minor burns, lacerations, abrasions, graft sites and leg ulcers. Each dressing measures 5cm x 5cm.

Features:

- Soft paraffin base
- Sterile open-weave gauze presentation
- Contains chlorhexidine which is an active agent against a wide range of bacteria
- Reduces risk of infection
- Soothing and low-adherent

Benefits:

- Soothes and protects the wound and allows free passage of viscous exudate
- Open-weave gauze helps maintain shape and resist fraying when dressing is cut to shape
- Effective against a wide range of gram-positive and gram-negative bacteria, including MRSA
- Antiseptic efficacy unaffected by serum and blood

Atrauman Dressing

D2036 - £26.30 - 5cm x 5cm Box of 50

Non-medicated dressing made of hydrophobic, polyester mesh with a 1mm pore size, smooth surface structure, impregnated with a neutral ointment. The impregnated neutral ointment contains fatty acids which actively support lipid metabolism and thereby promote healing; without additives of vaseline or other paraffins.

For general wound treatment; especially to keep the wound surface and margin soft and supple e.g. for skin abrasion wounds or lacerations, burns and scalds, for use in plastic and cosmetic surgery and in nail extractions.

Atrauman is also permeable to exudate, particularly soft and conformable and does not stick to the wound. Hypoallergenic and effective for up to seven days.

Melonin

D2032 - £12.99 Pack of 100

- Low adherent dressings
- Highly absorbent cotton and acrylic fibre pad which is heat bonded on one side to a very thin perforated polyester film
- Low adherent surface will not stick to injured area and allows wound to breathe
- Easily cut pads
- Individually sterile wrapped

Low-Adherent Sterile Dressing

D2030 - £6.99 Box of 100

Individually wrapped dressings 5cm x 5cm.

Sterile, highly absorbent dressing pads. Ideal for use on abrasions, lacerations and moderately exuding wounds.

Sofsorb Swabs

D2031 - £5.72 Box of 40

A soft, close-fibre construction swab providing efficient wet friction, suitable for debriding and cleansing of surface wounds. Virtually lint-free this swab provides excellent conformability and thermal insulation.

- Non woven swabs
- Sterile
- 4 ply
- 7.5 x 7.5cm

Skintact

D5568 - £21.55 5cm x 5cm Box of 100

Skintact is a high quality, sterile, perforated film absorbent dressing that is used as a low adherent wound contact layer. The dressing is the same on both sides, which prevents it being used wrong side down. It consists of two layers of perforated film with an inner absorbent layer. The perforations allow drainage of exudate to the absorbent layer where fluid is wicked laterally, extending the time before strike through occurs.

Skintact is suitable for the management of minor wounds, cuts and grazes and is ideal for use in chiropody thanks to the two low adherent sides, for use between toes.

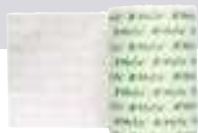

Mepore

D5531 - £4.21 4cm x 5m
D5532 - £6.15 7cm x 5m

D5534 - £9.50 6cm x 7cm Box of 60
D5535 - £15.99 10cm x 11cm Box of 40

BEST SELLER

Mepore is an air permeable, self-adhesive dressing ideal for low to moderately exuding wounds. Its skin friendly water based, solvent free polyacrylate adhesive, provides a gentle but secure fixation.

Mefix

D5621 - £2.50 2.5cm x 10m D5622 - £2.95 5cm x 10m D5623 - £4.80 10cm x 10m

Soft and elastic self-adhesive fabric which gives excellent air and water vapour permeability. The fabric is non-absorbent and provides a barrier for blood and fluid strike-through. The water-based polyacrylate adhesive is gentle to the skin and provides secure fixation. The easy-to-remove protection paper is pre-measured in 10cm intervals, and has a perforated split for easy removal and application. Mefix can be cut to the desired shape and size. 10 metre lengths available in 3 sizes.

Assorted Padding Set

D4561 - £17.18

This kit represents excellent value when compared to buying the items individually. Adhesive backing.

Comprises:

- 1 x 5mm Felt (D4562)
- 1 x 7mm Felt (D4563)
- 1 x 7mm Swanfoam (D4565)
- 1 x Fleecy Web (D4568)

Fleecy Web

D4568 - £2.63 Pink (1 Sheet)

D4569 - £2.63 Blue (1 Sheet)

D4567 - £3.25 - Extra (1 Sheet)

- 100% cotton padding with a raised fleecy surface
- Adhesive
- Designed to reduce friction and shearing stress from an area of skin e.g. dorsum of toes or posterior aspect of the heel
- Transverse stretch allows Fleecy Web to conform to skin including over concave and convex surfaces of the foot without creasing
- Fleecy Web Extra: Higher loft and greater density of cotton for additional comfort

Size: 22.5cm x 40cm

Semi-Compressed Felt

D4562 - £4.55 5mm (1 Sheet)

D4563 - £5.85 7mm (1 Sheet)

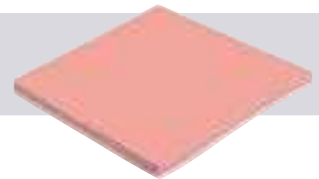

- Made from a mixture of wool and viscose fibres
- Available in 5mm and 7mm thicknesses
- Provides a cost effective alternative to all wool felt with good performance

Foam-O-Felt

D6002 - £6.73 5mm (1 Sheet)

D6004 - £8.89 7mm (1 Sheet)

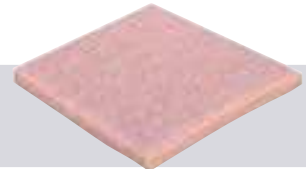

- Pure 100% wool bonded to a closed cell latex foam surface
- Adhesive
- Absorbs pressure and cushions impact forces, ideal for areas where there is fatty padding breakdown/atrophy

Size: 22.5cm x 45cm

Fleecy Foam

D6006 - £3.13 5mm (1 Sheet)

D6008 - £3.65 7mm (1 Sheet)

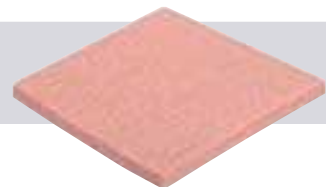

- Soft open cell polyurethane foam with a bonded fleecy surface
- Highly compressible with instant recovery
- Ideal for light cushioning especially on dorsal surfaces
- Available in 5mm and 7mm thicknesses

Size: 22.5cm x 45cm

Swanfoam

D4564 - £3.50 5mm (1 Sheet)

D4565 - £4.15 7mm (1 Sheet)

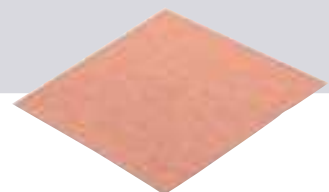

- Offers excellent cushioning from impact shock during gait with a closed cell latex foam layer bonded to a cotton moleskin top cover
- Instantaneous recovery

Size: 22.5 x 45cm

Moleskin

D6010 - £5.95 23cm x 70cm Roll

D6012 - £16.55 23cm x 3.0m Roll

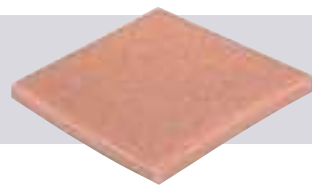

A woven 100% cotton fabric, which is lightly raised on one side. Used as a shield against abrasion and for splinting.

Adhesive backing. Size: 23 x 70cm

Nuprene

D6014 - £2.75 7mm (1 Sheet)
D6016 - £3.35 7mm (1 Sheet)

D6018 - £3.45 10mm (1 Sheet)

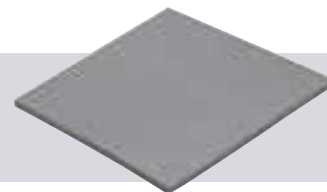

- Soft medical grade, open cell polyurethane foam
- Highly compressible with instantaneous recovery
- Ideal for light comfort cushioning

Size: 22.5cm x 45cm sheet

Poron

D6020 - £5.15 Non Adhesive 3.2mm (1 Sheet)
D6022 - £7.15 Adhesive 3.2mm (1 Sheet)

A skinned, closed cell polyurethane foam – offering highly efficient, long lasting underfoot pressure absorption and redistribution. The material returns to its original thickness in a fraction of a second and will not bottom out. Ideal for insole use within footwear on top of or underneath the existing shoe insole.

Size: 22.5 x 31.5cm Sheet

Gauze & Applicators

Haplagauz Tubular Toe Bandage (Cotton)

 D4591 - £7.99 2.5cm (2 Rolls) D4593 - £7.85 7.5cm (1 Roll)

- Thin, hypoallergenic bandage incorporating elastic threads allowing longitudinal stretch with recovery
- Ideal for retention strapping with padding especially where a light compression is required
- Excellent coverage over convex and concave surfaces with no or minimal creasing
- Supplied on backing paper it can be easily and accurately cut to size

Hapla Wave Tape

D4594 - £5.65 Blue D4595 - £5.65 Black

HaplaWave Muscle Care Tape is a Premium Muscle and Joint Support Tape.

Practitioners use this stretchy, hypo allergenic adhesive tape to provide muscle support and stability without limiting joint range of motion. The wave pattern of the adhesive lifts the skin reducing pressure on the tissue beneath. Can be used as part of a care package for conditions such as turf toe, Morton's Neuroma and metatarsalgia, plantar fasciopathy and heel fat pad atrophy, posterior tibial tendon damage, Achilles' insertional and mid portion tendonitis, peroneal muscle and chronic lateral ankle instability etc.

Zinc Oxide Tape

D5987 - £1.65 1.25cm x 10m D5986 - £2.25 2.25cm x 10m
 D5990 - £3.25 5.00cm x 10m D5991 - £4.95 7.50cm x 10m

- Lightweight, non-stretch zinc oxide tape that conforms well
- Features a serrated edge making tearing very easy

Fleecy Web Roll (White)

D4575 - £12.99 7.5cm x 5m

Fleecy Web Roll - White. Premium protection from friction and rubbing.

- Soft white padding with a raised fleecy surface
- Antibacterial
- Advanced adhesive system

Fleecy Web Roll (Pink)

D4576 - £8.99 5cm x 3m

Fleecy Web Roll - Pink. Premium protection from friction and rubbing.

- Soft pink padding with a raised fleecy surface
- Antibacterial
- Advanced adhesive system

Hapla-gel Starter Kit (Refillable)

D5688 - £45.50

This fantastic Starter Pack is a convenient and cost effective way to store and use Hapla-Gel products. The pack offers a selection of the most popular professionally used Hapla-Gel items, making it ideal as a starter pack or for continued use.

Packs of Hapla-Gel products sold separately for individual use & for the refilling of this starter pack can be purchased at Podicare.

Contents of kit:

- 4 x D5670 - Digital Pads (Small)
- 4 x D4671 - Digital Pads (Medium)
- 4 x D5672 - Digital Pads (Large)
- 2 x D5695 - Digital Tubes (Medium)
- 4 x D5674 - Digital Caps (Medium)
- 4 x D5681 - Toe Separators (Medium)
- 4 x D5682 - Toe Separators (Large)
- 4 x D5684 - Toe Spreaders (Medium)
- 4 x D5694 - Gel Dots

Digital Cap

D5673 - £12.72 Small D5674 - £12.82 Medium D5675 - £12.92 Large

- Full lining of polymer gel padding – The thinner gel lining allows the digital cap to be worn on all toes and is primarily designed to offer shock absorption and pressure relief protection to the distal phalanx area of each toe including the apex, e.g. lesser toes with hammer and mallet deformities
- The tube can be cut to the required length and stretches to fit most lesser toe sizes
- Available in small, medium and large sizes
- Pack of 6

Digital Pad

D5670 - £13.22 Small D5671 - £13.29 Medium D5672 - £13.39 Large

- Elasticated tube with polymer gel pad – especially designed to provide protection through cushioning to individual corn or callous sites on e.g. dorsum 2nd, 3rd and 4th toes, dorsum and medial/lateral borders 1st and 5th toes
- Features an elasticated tube containing the gel pad – reusable, can be transferred between multiple toe locations as appropriate and stretches to fit different sized toes
- Available in small, medium and large sizes
- Pack of 12

Digital Strip

D5677 - £12.92 Small D5678 - £13.02 Medium D5679 - £13.12 Large

- 71cm strip of 5mm polymer gel padding situated along one side – the thicker gel is ideal to effectively separate overlapping toes, relieve interdigital pressure and to provide a platform on which hammer or mallet toes can rest relieving pressure
- Gel strip is contained within an open-ended elasticated tube – the strip is reusable, can be transferred between multiple locations as appropriate and each size of the digital strip stretches to fit different sized toes
- Available in small, medium and large size
- Pack of 1

Digital Tube

D5676 - £8.64 Small D5695 - £8.74 Medium D5696 - £8.84 Large

- Full lining of polymer gel padding – The thinner gel lining allows the digital tube to be worn on all toes and is designed to offer pressure and friction protection to multiple lesion sites e.g. on dorsal and plantar locations
- Full gel lining is contained within an open-ended elasticated tube – A wide range of toe sizes can be fitted as digital tube comes in 3 sizes (small, medium and large) all with an elasticated tube
- The tube can be cut to the required length and is reusable
- Pack of 2

Gel Dot

D5694 - £8.55

- One size 100% polymer gel disc with concave centre – Surrounds and offloads pressure from small areas on the foot
- Non adherent – reusable, can be transferred to multiple locations as appropriate
- Can be held in place with Hapla-Band
- Able to be affixed to external surfaces, particularly effective at offloading and cushioning convex areas e.g. Tailor's bunion
- Pack of 12

Metatarsal Band

D5690 - £7.55 Small D5691 - £7.65 Large

- Elasticated band with an internal plantar metatarsal shaped gel pad
- Available in sizes small and large
- Offers cushioning and pressure redistribution from the full plantar metatarsal head area
- Hallux stitch helps to maintain position and alignment but can be cut if preferred

Sizes:

- Small: Shoe Size 2-6
- Large: Show Size 6.5-12

▪ Pack of 2

Bunion Sleeve

D4530 - £7.65 Small / Medium D4531 - £8.26 Large / X Large

- Available in sizes small/medium and large/extra large
- Replaceable
- Designed to conform to the shape of the bunion and dissipate compressional stress and friction

- Sizes: S/M or L/XL
- Stretch to fit
- Pack of 1

NEW LOWER PRICE!

Toe Separator

D5680 - £6.05 Small D5681 - £6.65 Medium D5682 - £6.75 Large

- Designed to fit comfortably between a pair of toes to gently separate them reducing friction and pressure
- Available in small, medium and large sizes
- Pack of 12

Toe Spreader

D5683 - £10.45 Small D5684 - £10.55 Medium D5685 - £10.65 Large

Preformed 100% polymer gel. 12 pieces.

- Interdigital application protecting and realigning hallux valgus and overlapping toes
- Soft gel design offers excellent comfort
- Sizes: Small, Medium, Large
- Pack of 12

Double Loop Divider

D5698 - £6.65 (Small) D5699 - £7.00 (Large)

- Available in two sizes (large and small) and is robust to daily use and can be washed
- The large size offers a comfortable, gentle re-alignment of the 2nd toe to the hallux with a soft spacer bar to separate the 2 toes as well
- The small size offers comfortable, gentle re-alignment of the lesser digits
- Pack of 6

Bunion Protector

D5689 - £19.75

Preformed 100% polymer gel. 6 x pack.

- Soft, flexible, shaped gel for immediate protection from pressure and friction to a sensitive bunion site
- Available in one size and can be used on either foot
- Toe loop for easy positioning
- Pack of 6

Toe Prop / Crest

D5669 - £13.70

- Relieves the discomfort of hammer toes by extending the digits (where possible) and raising the digits, removing pressure from the dorsal interphalangeal joints and apices
- Available in one size and can be used on either foot
- Toe loop keeps the prop firmly in place
- Pack of 6

NEW LOWER PRICE!

BEST SELLER

Dermatonics Soothing Cream

P6010 - £4.99 70ml
P6011 - £7.99 125ml

A great solution for those who suffer from conditions such as athlete's foot, diabetes, dermatitis, or other dry skin conditions that cause itchiness and discomfort.

The cream is designed to rapidly soothe and relieve itchiness and can simply be used as a moisturiser as well.

Dermatonics Dry Skin Cream

P6000 - £5.99 200ml
P6001 - £16.99 500ml

A nourishing and hydrating cream that is designed to soothe and protect dry, rough, and cracked skin.

Enriched with urea, olive oil, and papaya extracts, this cream provides deep hydration and nourishment to the skin, leaving it feeling soft, supple, and healthy.

Dermatonics Hard Skin Removing Balm

P6003 - £4.99 70ml
P6004 - £7.99 125ml

An excellent solution to soften hard skin on your feet.

The balm gently moisturises away unsightly hard skin, giving feet an exquisitely smooth look. Not only is it effective, but it is also beautifully scented with sweet blossom aromas, making it a luxurious treat during a pedicure or on its own.

Vegan friendly and suitable for people with diabetes.

Hydromid Skin Softening Cream

P4593 - £5.20 50ml

A powerful skin softening cream ideal for use on cracked and fissured feet, leaving the skin softer and pleasant smelling.

Barrier Cream

P4621 - £5.20 50ml

A natural cream which creates a barrier to help prevent the spread of infection whilst swimming. Contains essential oils which have been shown to promote healing.

Warming Cream

P4573 - £5.20 50ml

An invigorating cream to help cold feet warm through. Naturally selected oils to invigorate and improve circulation, producing a warming effect to control and improve cold feet.

Dermatonics Natural Care Heel Balm

P6005 - £4.99 70ml
P6006 - £7.99 125ml

Alternative for SPLITZ Cream

A solution for those struggling with cracked heels and very dry feet.

The inclusion of New Zealand Manuka Honey and 25% urea in the formula, works to help hydrate and draw moisture into the skin. It is also suitable for people with diabetes and is vegetarian-friendly.

Aloe Vera Soothing Gel

P1002 - £2.90 75ml

Soothing – cooling Aloe Vera is unsurpassed. It is a refined gel enhancing the properties of Aloe Vera.

Aloe Vera is noted for helping healing in a variety of minor conditions including small burns and itching.

Dermatonics Ultra-Cool Foot Gel

P6012 - £4.99 70ml

The gel has a cooling and relaxing effect that provides immediate relief after a long day on your feet. Stimulating blood

circulation, it removes the feeling of tired legs and has anti-inflammatory and relaxing properties that soothe and calm the skin.

Dermatonics Fizzy Foot Foam

P6002 - £4.16

The fizzing sensation produced by the foam helps revive and rejuvenate the skin, leaving it feeling renewed and revitalised.

Contains menthol and New Zealand Manuka Honey, providing a powerful exhilarating effect for your feet.

- Long-lasting comfort and freshness
- Deodorise, rejuvenate, and soothe

Dermatonics Sensory Foot Scrub

Woods Lamp (NS)

F7009 - £99.00

The Wood's Lamp is a simple non-invasive device used for the diagnosis of infective and pigmentary dermatoses.

- 4 tube hand held unit, mains operated with ON/OFF switch
- Lens magnification is 3 diopter
- Blackout hood supplied

NS denotes a non stock item. Please allow up to 21 days delivery.

Magnifying Light for Hadewe Foot rest

F7019 - £85.00

The magnifying light can be used in flexible ways, since the included powerful clamp allows you to combine it with the Hadewe foot rest, carry case, or all kinds of furniture and cabinets.

The extra long arm enables ultimate positioning of the light. Heat is also not an issue with this product. In fact, you may transport it immediately after use.

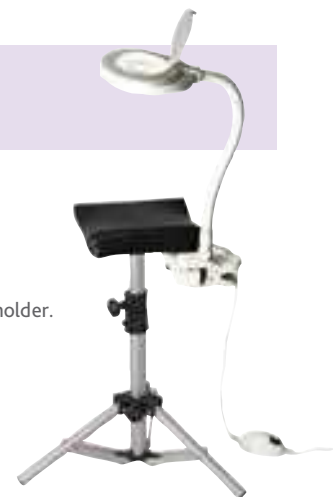

Position the light close to the patient's feet and keep or move it to an optimum position via the flexible arm and holder.

For transport simply detach the light, and move the adaptor under the foot rest.

- Clamp to hold flexible magnifying light (Adapter included)
- 9cm diameter lens - three mag dioptres
- Colour white

Dimension (of magnifying light only); length of flexible arm 62cm

Weight including footrest: 2 Kg

NS denotes a non stock item. Please allow up to 21 days delivery (subject to availability)

Workstations and Trolleys

BEST
SELLER

Contemporary Work Station (NS)

F6203 - £257.50

Robust all steel construction. Hard wearing white gloss Epoxy coating on all steel shelves and legs. Supplied with top and one other shelf as a 2-tier trolley. The optional shelf and drawer fits in centre or lower position.

Depth: 51cm Width: 31cm Height: 73cm (approx)

Features:

- 1 year unconditional guarantee.
- Free running castors on all feet
- Safety lip feature on shelves
- Optional accessory fittings
- Free Lamp Holder

Footrests

Hadewe Adjustable Foot Rest & Extras

- F4033** - £92.00 Foot Rest with Carry Case
F4034 - £19.50 Carry Case only
F7019 - £ 85.00 Magnifying Light only

BEST
SELLER

Weighing just over 1kg, the Hadewe Foot Rest is lightweight making it easily portable and therefore perfect for use during domiciliary work. The Foot Rest can easily be manipulated to achieve the perfect foot position through the adjustable height setting (between 460-670 mm) and ability to alter the angle of the cushion. The extra reinforced steel joint also allows you to put up to 20kg of weight on the Foot Rest (Cushion Measurement 220 x 170 x 50 mm) and the legs are designed to spread wide the aid stability when in use.

A carry bag (W 690 x H 320 x D 240 mm) is included with the Foot Rest to assist with transportation and storage.

The Magnifying Light can be used in flexible ways, since the included powerful clamp allows you to combine it with the Hadewe foot rest, carry case, or all kinds of furniture and cabinets. See page 86 for more info.

Sturdy Foot Rest (NS)

F4030 - £75.00

A highly versatile, sturdy, stable patients Footrest. The moulded padded footrest holds the patient's leg steady. Height and tilt adjustable.

Height range: 45 - 55cm. Weight: 2.5 kg

Please note: this footstool does not collapse..

NS denotes a non stock item. Please allow up to 21 days delivery (subject to availability)

All sales are subject to the following terms and conditions. No other conditions shall apply unless agreed in writing prior to placing an order.

VAT

Prices quoted are exclusive of VAT and VAT at the current rate will be added to all invoices (except on items which are zero rated for VAT).

PRICES

Prices may be changed without prior notice. Podiacare Ltd reserves the right to correct clerical omissions and errors in this price list.

For all current pricing, please visit us online.

ORDERS

Due to credit card / bank charges there is a minimum NET order value £10.00 (i.e. all orders must be to the value of £10.00 NET or above).

Orders below £10.00 net will be charged at the £10.00 net minimum order value rate. Cash transactions are excluded from this clause.

All prices are subject to VAT at the current rate.

LIMIT OF LIABILITY

Podiacare Ltd cannot be held responsible in the event of goods not of our manufacture being faulty or delivered late by the delivery agent.

PAYMENT

Orders, including those paid by installments, must be accompanied by payment in full with a cheque or credit/debit card details. Please make cheques payable to 'Podiacare Ltd'.

INSTALMENTS

Payment by instalments is only available on specific items/values as indicated by the company and subject to individual application.

An administration charge will be applied on default of payment and settlement in full of any outstanding balances automatically becomes due.

Goods remain the property of Podiacare Ltd until payment has been received in full and the final payment has been cleared. On default of payment, we reserve the right to recover the goods and to enter the buyer's premises to do this.

WARRANTY

Carriage charges are excluded under all warranties of goods/equipment.

STOCK AVAILABILITY

NS denotes a non stock item. Please allow up to 21 days delivery (subject to availability)

CARRIAGE

All orders of **SIXTY POUNDS NET OR MORE** will be **DELIVERED FREE OF CHARGE** to UK Mainland only (excluding Scottish Highlands, Northern Island and The Channel Isles).

All orders under **SIXTY POUNDS NET** will carry a charge of **£7.50 NET** for administration, handling and delivery. UK Mainland only excluding Scottish Highlands, Northern Island and The Channel Isles).

For carriage to non-mainland UK (including Scottish Highlands, Northern Island and The Channel Isles) delivery will be charged at the current rates applicable. We will endeavour to use the most economical means of carriage available.

Due to custom restrictions in Europe, non-UK orders will need to be placed over the phone or by email on orders@podicare.co.uk where we can advise if we are able to deliver to your location.

DELIVERY

Whilst every effort is made to deliver orders within 5 working days, Podiacare Ltd accepts no responsibility or liability for any kind of failure to deliver within the time quoted due to reasons beyond our control.

Goods will be delivered, by our appointed carrier, to the address given by you at the time of ordering. It is important that this address is accurate. In most instances the parcel will not be left without a signature. If you ask for your delivery to be left somewhere without a signature then this is done at your own risk, we will not be liable for the theft / loss of your package. Please provide us with a delivery address where the parcel can be signed for between

8:00am and 6:00pm. We are able to arrange delivery to your place of work if this is more convenient. We cannot be held liable for any consequential loss caused by late delivery or failure to deliver by our appointed carrier.

URGENT 24-HOUR DELIVERY (Monday-Thursday only, excludes bank holidays)

Order Line **01628 632449**

Orders must be placed by 11.00 am Mon-Thurs. This option is available to the UK Mainland only (excluding Scottish Highlands, Northern Island and The Channel Isles).

Next day delivery will have a charge to your order.

The company reserves the right to select the method of delivery.

The company reserves the right to supply orders in partial shipments and invoice these shipments separately (this will not affect free delivery on orders over £60.00 net).

RETURNED GOODS - CONDITIONS

Podiacare Ltd. operates a policy of **NO RETURNS** on Creams and Medicaments under any circumstances. Podiacare will only accept returns of other goods by previous agreement from Podiacare Ltd.

All goods returned should be accompanied by a returns number, the Buyer's customer number and the invoice number on which the goods were supplied. A credit note cannot be issued if this information is not supplied.

Subject to the above conditions, Podiacare Ltd will accept for credit at a sum equal to that which the Buyer paid for the goods;

- Items returned to and received by Podiacare Ltd in a readily re-saleable condition within 10 days of delivery to the buyer.
- Items received by the Buyer in an unusable condition; provided that Podiacare Ltd is notified within 3 days of delivery and that the Buyer returns such items unless otherwise instructed, in writing, by Podiacare Ltd.

Creams and or Medicaments will only be accepted for return and credit for the following reasons:

- To correct an error in delivery
- In response to a product or batch recall instigated by a manufacturer.
- Where products or packages are alleged to be faulty.

All claims for shortages or damaged goods must be made within 3 days from receipt of delivery unless Podiacare Ltd have notified you that there will be a delay in delivery. It is the responsibility of the customer to adequately pack the goods, and return via recorded or registered post. Podiacare Ltd will not take responsibility for lost or damaged goods sent to us.

ORDER QUERIES

Podiacare Ltd operates a policy of **NO RETURNS**.

INCORRECTLY SUPPLIED ITEMS

We will only accept return of items incorrectly supplied, by prior agreement between Podiacare Ltd and the customer. The customer must make notification of error to Podiacare Ltd within 3 days from receipt of delivery.

INCORRECTLY ORDERED ITEMS

Items incorrectly ordered by the customer will not be exchanged. i.e.: If you place an order and fail to give both the product code and a description of the item, Podiacare Ltd reserve the right to either supply, in their considered opinion, the item you require or not supply at all.

SHORTAGE OF ITEMS

Items that are to follow will be notified in your delivery. Any shortages excluding items to follow must be reported to Podiacare Ltd within 3 days from receipt of delivery.

DAMAGED AND FAULTY ITEMS

Subject to the above conditions, Podiacare Ltd will accept back for replacement, items that are damaged or faulty providing notification is made within 3 days from receipt of delivery.

PRODUCT RECALL

Items will be accepted for return or credit in response to a product or batch recall instigated by a manufacturer.

Supplying the professional

AUTOCLAVE KIT

This kit contains all the items for the PodiaClave Autoclave. Ideal for the mobile practitioner.

Special Price £1,310.20 (RRP £1,408.66)
